The purpose of this project is to find out what helps you learn and what hinders your learning, especially in general education classes. We are also interested in your “Mānoa Experience.” We will use what we learn to improve teaching at the University of Hawai‘i at Mānoa (UHM) and to improve students’ overall campus experience. Students who participate will help the university assess and improve general education for all students at UHM.

Your participation in the project will consist of completing 3 online surveys each semester you are a UHM student. Some of these surveys will be short and take less than 10 minutes. At least one survey each semester will take about 30-45 minutes to complete. Survey questions will focus on factors that help or hinder your learning and your experiences at UHM overall.

As compensation for completing the surveys, each year that you participate in the project you will be given $75, in two payments, in the form a UHM bookstore gift card (or equivalent).

No personal identifying information will be included with the project’s results, and all personal information will be kept confidential to the extent allowed by law.

Participation in this study is voluntary and you may withdraw from the study at any time. Your decision to participate or not to participate will in no way impact your grades at the university.

If you have any questions or if you want to learn more about this project, please do not hesitate to contact any of the following people:
