

From Data to Dashboard: A Data Framework for the NSDUH Dashboard

Join us for an overview of the framework used to build a data dashboard using the National Survey for Drug Use and Health (NSDUH):

- A review of the NSDUH and its data structure
- A live walkthrough of the RDAS website which houses the NSDUH
- A live demonstration of the reproducible data analytic framework used to download hundreds of tables in R

Friday, March 11, 2022 at 2:00 pm EST
[9:00 am HST]
