Monday, September 9: 8:00 AM – 6:00 PM EDT
Tuesday, September 10: 8:00 AM – 6:00 PM EDT

Register now!

Get Online and Optimize Your Job Search!

The ACS Virtual Career Fair eliminates geographical barriers, enabling job seekers and employers to connect with each other no matter where they are. Interviews take place via text or video chat, plus there are virtual forums for job seekers and employers to meet informally. Job seekers can connect with employers from their homes, offices, or from the dedicated computer stations we'll have on hand at the Onsite Career Fair. In addition, virtual job seekers can schedule one-on-one career consultants and attend live events via webcast (or view them later on demand). Enhance your job search by participating fully in both onsite and online sections of the ACS Career Fair.

Watch this short video to see how it works and download the User Guide.

As a virtual job seeker, you can...
• Schedule one-on-one career consultations with ACS career consultants.
• Find open positions that match your interests and qualifications.
• Submit applications, resumes, and supporting material such as your own video introduction.
• Review in-depth career and company information.
• Engage in real-time text and video interviews and chats with prospective employers.
• Network informally with recruiters and HR representative to learn more about their companies and their needs.
• Participate in interactive presentations via live video feeds (or viewed the recorded versions later).
• Attend the Virtual Exhibit where you may be able to network with more prospective employers.

Conducting a Virtual Job Search is Easy!

Once you register for the Virtual Career Fair, we'll send you all the information you need to create an outstanding profile that grabs the attention of prospective employers. Moreover, you'll have the information you need before the Virtual Career Fair begins to seamlessly navigate the site.

Please Note: ACS cannot guarantee that you will secure interviews at the ACS Career Fair, as it is contingent on the available open positions and the credentials that employers are seeking. All the attendees, however will be able to fully participate in the networking forums, career workshops, speaker events, and one-on-one career consulting.
