Doctorate – Advance to Candidacy (Form II)

Use this form to report the following:

- Appointment of dissertation committee (If appointing a non-graduate faculty to the committee, attach justification and a current CV of the faculty.)
- Approval of research topic (Attach appropriate approval(s) as necessary. See below.)
- Results of the comprehensive exam *
- Results of the second foreign language exam (if required)

* A student who fails any portion of the comprehensive exam may repeat it once. A student who fails the exam for the second time is dismissed from both the graduate program and the Office of Graduate Education.

Submit this form prior to registering for Dissertation 800 or before the last day to add courses during the semester of registration. Registration in Dissertation 800 is allowed only after this form and all necessary attachments have been received and approved by the Office of Graduate Education.

Approval for Research Topics
As required by federal, state and university regulations, UHM students who intend to conduct research that involves the use of subjects listed below must check with their respective academic departments, the Office of Research Services, and the appropriate office(s) listed below for approval and guidance.

Institutional Review Board and Human Studies Program
The Institutional Review Board (IRB) is a federally required committee responsible for evaluating research protocols which involve people as research subjects. Protocols involving human subjects are required to be reviewed and approved by an IRB prior to starting the activities. All research proposals that involve human subjects or the University’s non-public information to identify or contact research subjects require review and approval by an IRB. Federal guidelines allow for some research to be exempt from IRB review: however, only the Human Studies Program office on behalf of the IRB may grant such exemptions. The Human Studies Program administratively supports the University’s three IRBs (Biomedical, Social & Behavioral Sciences, and Cooperative) by processing applications and documents and providing education on the principles of conducting ethical human research.

Environmental, Health and Safety Office
The Environmental Health and Safety Office (EHSO) ensured safe campus environments through the development and administration of health and safety programs critical to the university experience. Research proposals involving radioactive materials, compressed gas (scuba) diving, certain chemicals and hazardous materials and their disposal are the responsibility of EHSO.

Institutional Biosafety Committee and Biosafety Program
The Institutional Biosafety Committee (IBC) is a federally required committee responsible for evaluating research protocols which propose the use of biological recombinant material and other biological material including but not limited to microorganisms, biological toxins, cell or tissue samples, and genetically modified animals and plants. Protocols involving these materials are required to be reviewed and approved by the IBC prior to starting the activities. The Biosafety Program
administratively supports the IBC by processing all applications and documents, conducting laboratory inspections, and provides training for general laboratory biosafety, biosafety and bloodborne pathogen awareness.

**Institutional Animal Care and Use Committee and Animal Welfare**
The Institutional Animal Care and Use Committee (IACUC) is a federally required committee responsible for evaluating research and instructional protocols which propose the use of vertebrate animals in traditional laboratory, agricultural, and field condition environments. Protocols involving vertebrate animal species are required to be reviewed and approved by the IACUC prior to starting the activities. The Animal Welfare Program administratively supports the IACUC by processing all applications and documents, conducting laboratory inspections, and oversees education requirements for conducting ethical and scientifically sound animal use research and instruction.

**Committee Approval**
Members of the committee must review the student's research proposal and indicate their approval by signing in the space provided.

**All-But-Dissertation (ABD) Certificate**
Upon request by the graduate chair, the Graduate Student Services will issue an ABD certificate to the student.
**Doctorate – Advance to Candidacy (Form II)**

### Part I. To be completed by student

**Name___________________________________________________________________________ UH ID ______________________

Last NameFIRST M.I.

**Graduate Program_________________________________________________________________ Degree Objective________

**Dissertation Topic:_____________________________________________________________________________________________

□YES □NO My research requires approval by one or more of the following: Institutional Review Board (IRB), Environmental Health and Safety Office (EHSO), the Institutional Animal Care and Use Committee (IACUC), and/or the Institutional Biosafety Committee (IBC). If yes, attach a copy of the approval letter(s). Enrollment in Dissertation 800 will not be permitted until such approval is obtained. I certify that I have read and understand the policies and instructions on this form.

**DISSEMINATION COMMITTEE:** By signing below, we certify that we have reviewed and approved the proposed research and found that the proposal is 1) appropriate to the student’s academic discipline, and 2) in compliance with the policies and instructions for this form. Non-Graduate faculty appointed to a committee must also be approved by the Office of Graduate Education. Attach a current curriculum vitae of the non-graduate faculty and justification for committee inclusion.
