RE: SB 1278 RELATING TO EDUCATION

POSITION: HEPC supports this bill to build HEPC’s capacity to serve Hawaii’s decision makers.

COMMENTS:

Purpose and Mission
The purpose of the Hawaii Educational Policy Center (HEPC) is to provide objective, data-based information in the form of policy briefs, reports, articles, and forums bearing on public and private education policy and practices at all levels. The target audiences for HEPC publications and events are educators, policymakers, and other education stakeholders in the State of Hawaii.

HEPC conducts, sponsors, commissions, and/or coordinates analytical studies that inform policy discussions. Examples of issues that are addressed include:

- Performance-based assessments
- Teacher Resignations
- State financial support for public education
- Declining enrollments at the University of Hawai’i
- Implementing health education standards
- Readiness of children to succeed in school
- Feasibility of establishing a K-16 student data system
- Middle-level education in Hawai’i
- Characteristics of upper division dropouts at UH Manoa

The HEPC provides the infrastructure to support data-based decision-making and uses data sources such as the U.S. Census, National Center for Educational Statistics, Public Welfare, and the Hawai’i State Department of Education.
HEPC recognizes that the Hawaii Department of Education and the University of Hawaii are among the largest public institutions in our State. Understanding the issues and policy challenges of the DOE and UH are of importance to decision makers, researchers, and stakeholders throughout the community.

HEPC is requesting capacity funding of $150,000 per year, which will allow HEPC to ramp up its ability to retain expert research and staff to assist policy makers in Hawaii. Currently, HEPC is benefitting from some capacity support through the UH College of Education. However, this is not sustainable in the long run, and is not enough to add staff.

HEPC has produced reports requested by the Legislature in the past and looks forward to exploring opportunities to be of service in the near future.
