

FROM JOHN CASKEN:

- Organization of input strange; no involvement by Nursing (it was added later that Dean of Nursing was invited, but did not participate)
- As a professional school, Nursing provides short programs.
- Prefers independence to “solid support.”

Comments:

Organization of input seemed very limited. Invitation to meet with consultants was accepted by the Dean of the School of Nursing and Dental Hygiene but the invite was later withdrawn apparently because of time constraints.

A professional school, SONDH provides short training courses for visiting groups from many Asian universities. Also accepts graduate students through its web-based PhD program and also post-doc fellows.

(This last comment was in response to Neal’s question if we wanted to be independent or receive all our support from ????) Until it is clear how International Education would be organized we are comfortable with the current situation.
