John Sayles likes to be known as a storyteller.

**Go For Sisters** is his 18th film, all of which he has also written, and most of which he has edited. He writes fiction, most recently his epic historical novel **A Moment in the Sun**, which was published by McSweeney's in May 2011 and has gone into its second printing. His book about the making of *Matewan*, **Thinking in Pictures**, is taught in film classes and has never been out of print. Sayles supports his directing career as a writer for hire in Hollywood. He directed three music videos for Bruce Springsteen: **Born in the USA**, **I'm on Fire**, and **Glory Days**. He is one of the godfathers, or grandfathers, of the US Independent Film movement.

John Sayles' books will be available for purchase at  
the event from the University of Hawai'i Bookstore
