Building Bridges to Meet Our Educational Goals: Resources for Community College, High School and College Students

Hūlili Bridge & Career Explorations

Hūlili Bridge is a program for Native Hawaiian community college transfer students making the transition to UH Mānoa. All community college students are encouraged to apply. The application deadline is March 15 at 4p. The program this summer runs from July 8 - August 15. Students will be enrolled in two classes and can choose to either dorm at UHM or commute. Participants will receive a meal plan and a $1,000 stipend. All expenses are paid for. For an application to Hūlili Bridge, email Māhea Quirk at jsing@hawaii.edu or stop by our office in QLCSS 104.

On February 15th, haumāna from UHM, Hālau Kū Māna, Ānuenue, Wai‘anae and Nānākuli came together to participate in an annual Career Explorations Event hosted by NHSS, Kamehameha Schools, and Nā Pua No‘eau. Everyone had a chance to talk story with groups of professionals from five career fields. The visiting professionals shared stories about their personal experiences, offered their thoughts about building resilience in adversity, and responded to questions about their work. Students were challenged to take small steps towards identifying and practicing their passions and all students left with information about internships and college prep programs.
