

**Program Review Questionnaire
For Faculty in Programs/Degrees with Math Requirements**

The Mathematics Department is currently being reviewed by the Council on Program Reviews. A number of Manoa programs, including your program, require students to complete math courses as part of their degree programs. The COPR Review Team is interested in your assessment of how well these math courses are meeting the needs of your students and programs. Please indicate the degree of your agreement with the following statements by circling a number on the corresponding scale to the right of each statement, and answering the follow-up questions.

	Strongly <u>Agree</u>	4	3	2	1	Strongly <u>Disagree</u>	0	<u>Uncertain</u>
1. The Mathematics Department courses required by my program/degree provide students with the skills that I expect.		4	3	2	1		0	

If you disagree or strongly disagree with this question, please answer question 3 below.

2. I am satisfied with the selection of courses currently offered by the Math Department.		4	3	2	1		0	
-------------------------------------------------------------------------------------------	--	---	---	---	---	--	---	--

If you disagree or strongly disagree with this question, please answer question 4 below.

3. What are your areas of concern regarding the math courses taken by your students? Check as many as apply:

The course(s) were too difficult for my student to master.
The course(s) were too theoretical for my students.
The course(s) did not cover the material I wanted them to cover.
Other. Please specify:

4. Please specify courses you would like to see added:
