ALOHA!

Welcome to the University of Hawai‘i at Mānoa (UHM), the flagship campus of the University of Hawai‘i 10 campus system.

We do noble work at this University. What each employee does results in students earning college degrees and the discovery of research that makes this world a better place. So I hope that we strive daily toward the same united goals — to achieve excellence in each of our respective jobs, and to foster a spirit of teamwork and aloha as we fulfill our duties.

This short orientation program will provide basic information, as well as important guidelines on the operations of the campus, procedures to follow, and other materials to assist in your endeavors.

We look forward to a productive and successful association.

President, University of Hawai‘i

LawRoom Online Training (Employees)

300: Intersections: Anti-Harassment – Title VII – Title IX – VAWA Section 304 (“Intersections”)

Duration: Approximately 2 Hours

Intersections trains employees to recognize, prevent, and respond to workplace harassment and discrimination based on “protected characteristics.” The course also helps employees address inappropriate behavior before it creates a “hostile work environment” by giving employees the skills necessary to reduce potential legal risks by recognizing and addressing abusive behavior and other misconduct, including microaggressions and unconscious bias, that may lead to workplace bullying or hostility, reducing productivity and creativity. Intersections invites employees to consider the nature of harassment and discrimination, and provides practical tips on creating a safe, inclusive environment for work, including safe and positive options for bystander intervention.

Employees may participate in training on Title IX, VAWA and UH policies

The University of Hawai‘i is committed to ensuring a safe, civil, learning and working environment in which the dignity of every individual is recognized and respected. All members of the University share equal responsibility in this regard. All relationships between University employees and its students adhere to principles of professionalism, integrity, mutual trust and respect. Any relationship that calls these principles into question jeopardizes the University’s ability to effectively carry out its mission and maintain public trust.

Therefore, the University prohibits initiating or engaging in a new consensual relationship between employees and between employees and students when in a power and control differential exists, including, but not limited to situations in which one member has an evaluative and/or supervisory responsibility for the other. The University views these consensual relationships where a power and/or control differential exists as inadvisable and fraught with risk, especially when students are involved. It is important to note that the potential for sexual harassment exists in consensual relationships where this is a power and/or control differential.

EHSO works to promote safe campus environments through the development and administration of health and safety programs. *Ho'oponopono Laulima* (Managing Safety through Cooperation) is our motto and group's mission. Further details are available at: [http://www.hawaii.edu/ehso/](http://www.hawaii.edu/ehso/)
Hawai‘i is the 50th state and is unique like no other. Nicknamed the “melting pot,” Hawai‘i consists of people from around the world with various cultures who bring their own traditions and values and share with one another.

The people of Hawai‘i promote “cultural awareness,” the act of being aware that cultural differences and similarities exist and have an effect on values, learning, and behavior, including working together. As a result, there is a greater sense of tolerance and understanding for people with different backgrounds.

Working, teaching, and learning in an environment with diverse cultural backgrounds adds value to an organization, strengthens relationships within the community and brings new perspectives to all.
The University of Hawai‘i prohibits retaliation against anyone under the aforementioned policies.

Retaliation is defined as adverse action or hostile treatment against any individual because he or she has engaged in any of the following activities:

- Seeking advice or assistance;
- Reporting an incident;
- Filing an informal or formal complaint; or,
- Assisting or participating in a complaint resolution process or investigation.

Retaliation is a separate complaint and will be investigated accordingly. Persons who commit retaliation in violation of these policies are subject to appropriate disciplinary action in accordance with the appropriate collective bargaining agreement, if applicable.

The School of Nursing and Dental Hygiene operates a Dental Hygiene Clinic as part of the curriculum, where students treat patients under the supervision of licensed dentists and dental hygiene faculty members. Treatment may take longer than a private dental practitioner because patient care is provided by the students and monitored and evaluated by the faculty.

Basic services include a thorough oral exam, teeth cleaning and polishing and fluoride treatment. Other dental procedures are also available depending on the needs of the patients.

Services are available to the UH community, as well as the general public. Clinic hours vary by semester due to the students’ schedules.

All first-time patients should stop by the Dental Hygiene Clinic at Hemenway Hall, room 200 for a screening. A medical/dental history evaluation and a clinical screening will be conducted prior to scheduling an appointment.

Please call 956-8229 for information on the processing fee and scheduling of dental hygiene care.

As this is part of the dental hygiene curriculum to provide teaching experiences, the clinic reserves the right to select patients and the type of procedures to be rendered and to refuse individuals who do not meet the teaching criteria.
