List of Hotels (description)

This list of hotels and rates is based on a one room, one person stay from one day before the symposium to one day after, March 18th – 22nd, 2020. Most hotels have options for government rates, which require your government identification card upon checking in. On most hotel websites, you can view their many options for rates and some hotels offer rates for early bookings.

Most of the options are located in Waikiki, which is a relatively short drive to the University of Hawai‘i at Mānoa (UHM). Some options, like the Airport Honolulu Hotel, are farther from UHM but closer to the airport. The last two options on the list are the farthest from UHM, but provides options you should consider when visiting O‘ahu, Hawai‘i.

This list covers a wide range of options but is mostly based on location-based selection. It also provides more exuberant options, while highlighting cost-efficient options more. Nevertheless, there are many more hotels and housing options that are not listed here. Some of these options include Airbnb, vacation rentals, and many more hotels all around the island.

Another option is to collectively book at the same hotel in advance to receive a group rate, which require a certain number of people booking. This varies from hotel to hotel. In some cases, group rates can be the most cost-effective option.
