

Proposed Curriculum Map

Biology Core Courses for BIOL, Marine BIOL, and ZOOL majors.

Courses	Student Learning Outcomes		
	Students will be able to apply a scientific process.	Students will be able to communicate about biological science.	Students will be able to recall foundational biological information necessary for entering post-baccalaureate school or entering a career in the biological sciences.
BIOL 171/171L	I	I	I
BIOL 172/172L	I	I	I
BIOL 265/265L	R	R	R
BIOL 275/275L	R	R	R
BIOL 375/375L	M&A	M&A	M&A
ZOOL 490	M&A	M&A	M&A

Notes: BIOL 375/375L is only for Biology (B.A., B.S.), Marine Biology (B.S.), and Zoology (B.S.) majors.

Zoology (B.A.) majors will be mastered and assessed in ZOOL 490 since they do not take BIOL 375/375L

ZOOL 490: Senior Seminar is only used for Zoology (B.A., B.S.) majors.

(It should be noted that Biology & Zoology are presently midway through a merge into the Biology Department, thus a lot of assessment for both of these entities are also being merged)
