

Traditional Pathway to the BS in Nursing 2014-2015 Curriculum Map

Course		Program SLOs											
		Engage in professional nursing practice as a generalist for individuals, families, groups and community in a variety of settings.	Use critical thinking skills as a basis for making judgments for generalist nursing practice.	Provide culturally competent nursing care.	Identify leadership and management concepts involved in professional nursing practice.	Use beginning leadership and management skills to coordinate the delivery of quality nursing care.	Collaborate with individuals, groups, communities, colleagues and interdisciplinary health members to coordinate the delivery of care.	Demonstrate accountability for generalist legal scope of practice, professional standards of practice and professional code of ethics.	Identify professional organizations that improve nursing practice.	Accept responsibility for lifelong learning.	Use information technologies to manage and process data, information and knowledge.	Critically examine evidence-based sources and individual experience to make professional practice decisions.	Identify generalist nursing practice problems amenable to research.
