

## ANTHROPOLOGY MA CURRICULUM MAP

### SLOs for the Regular MA Degree (Plan A or B)

1. A broad knowledge of the discipline of anthropology as a whole, its historical and theoretical foundations and schools of thought, with special emphasis on one or more of its subfields (archaeology, physical anthropology, linguistic anthropology or cultural anthropology);
2. The ability to conduct research, to formulate researchable problems, to write research proposals, to apply methodologies basic to the relevant subdiscipline[s], and to write research reports;
3. An anthropological familiarity with different geographical regions with focus on one in which the student proposes doing anthropological field research;
4. An ability to teach introductory courses in one or more subdisciplines of anthropology.
