Tuition and fees are charged according to the number of credit hours carried by the student. For regular, Outreach College Continuing Education, and Summer Sessions tuition schedules, refer to the following page. Auditors (those enrolled in a course for no credit) must pay the same tuition and fees as students enrolled for credit. For tuition purposes only, a full-time student is any student enrolled for 12 or more credit hours.

The regular tuition to be charged is determined by the degree status of the student and not by the level of the courses taken. For example, students who have earned a baccalaureate degree will be charged graduate tuition, except for students admitted for a second baccalaureate degree. Students admitted to the law or medical school will be charged the stated tuition for that school.

Medical, law, graduate nursing, or graduate business students concurrently enrolled in Graduate Division must pay the stated tuition for the medical school, law school, nursing school, or business college.

All tuition and fee charges at the UH campuses are subject to change in accordance with requirements of state law and/or action by the Board of Regents or the UH administration.

See the Outreach College website at www.outreach.hawaii.edu for refund information.

Residency for Tuition Purposes

Students who do not qualify on the first day of instruction as bona fide residents of the state of Hawai‘i for tuition purposes pay the nonresident tuition. An official determination of residency status is made at the time of application. Applicants may be required to provide documentation to verify residency status. Once classified as a nonresident, students continue to be so classified during their enrollment at UH Mānoa until they present satisfactory evidence to the residency officer that proves residency. For definition of Hawai‘i residency for tuition purposes, statutory exemptions, etc., refer to the “Campus Policies” section.

WICHE Programs

Bachman Annex 9-6

Tel: (808) 956-6625

UH Mānoa participates in three student programs of the Western Interstate Commission for Higher Education (WICHE).

Through the Western Undergraduate Exchange (WUE) program, a limited number of students from participating states who are not residents of Hawai‘i may enroll at UH Mānoa in designated programs at a 150% resident tuition (plus other fees that are paid by all students). Eligible states include Alaska, Arizona, California, Colorado, Idaho, Montana, Nevada, New Mexico, North Dakota, Oregon, South Dakota, Utah, Washington and Wyoming. WUE students do not pay the higher charge for nonresident tuition. Hawai‘i residents may enroll under the same terms in designated institutions and programs in other participating states. For more information, visit www.wiche.edu/tuition-savings/wue/

The John A. Burns School of Medicine participates in the WICHE-administered Professional Student Exchange Program (PSEP). PSEP allows legal residents of the states of Montana, Wyoming, and the CNMI (states without a public medical school) to enjoy Hawai‘i’s resident status for admission and tuition purposes at UH Mānoa. Students who receive certification from their home states receive preferential admission consideration and, if accepted, are charged Hawai‘i-resident tuition rates. To be certified for PSEP, students must apply to the WICHE certifying officer in their home state before October 15 the year prior to admission. State eligibility requirements vary, and the number of students funded by each state depends upon appropriations by the state's legislature. For addresses of state certifying officers, visit www.wiche.edu/tuition-savings/psep/.

UH Mānoa also participates in the Western Regional Graduate Program. Under this arrangement, legal residents of the other WICHE member states (AK, AZ, CA, CO, MP, GU, ID, MT, ND, NV, NM, OR, SD, UT, WA, WY) will be charged resident tuition if they are exceptional candidates for admission in specific graduate programs. For detailed information, see the eligible field of study listings with the Graduate Division at manoa.hawaii.edu/graduate/content/wiche-program or visit www.wiche.edu/wrgp.

Financial Aid

Scholarships, grants, loans, and work-study programs are provided to eligible students by the federal and state governments and private donors. Some programs are based on merit or academic records, and others on demonstrated financial need.

UH Mānoa encourages students who believe they may not be able to enroll or continue their education because they lack financial resources to apply for financial aid through the Financial Aid Services office.

The federal government is a major source of grants, loans, and work-study funds to undergraduate and graduate students. With the enactment of the Higher Education Amendment of 1992, applicants are required to submit the Free Application for Federal Student Assistance (FAFSA) form to the federal processor for the determination of eligibility for federal, state, and some institutional program funds.

If you have been selected for verification, you must submit federal tax transcripts, a verification worksheet, and other forms as required by Financial Aid Services. Students interested in applying for financial aid may visit our website at manoa.hawaii.edu/fas/ for financial aid information and forms.

The offer of aid may include funds from public and private sources, depending on the applicant’s residency, degree of need,
date of file completion, major, class level, and availability of funds. Recipients are advised to read the terms and conditions of their award offer, including the description of the type of funds awarded and disbursement procedures on the financial aid website.

Federal Direct Loans. These loans, the Federal Direct Loan (subsidized and unsubsidized), the Federal Direct PLUS Loans for parents of undergraduate dependent students, and the Federal Direct Graduate PLUS loan for graduate students are available through the U.S. Department of Education. Interest accrued may be subsidized by the federal government, depending on the degree of financial need. FAFSA required. Contact the Financial Aid Services office for details.

State Higher Education Loan. This loan is available to bona fide residents of the state of Hawai‘i who demonstrate financial need. FAFSA required.

Short-Term, Emergency Loans. These institutional loans are designed to meet temporary or emergency financial needs of registered students. Contact the Financial Aid Services office, the Graduate Student Organization, or specific departments.

Other Loans. Students are encouraged to exhaust all other possible sources of financial aid first, including federal loans. For additional information on other loan programs, check with the Financial Aid Services office, UH Foundation, or specific departments.

Work-Study

The Federal Work-Study (FWS) Program enables students to meet part of their financial need through part-time employment. The program is funded by the federal government with matching funds from UH Mānoa. Employment may be on or off campus with nonprofit organizations. FWS earnings are not calculated as income when applying for financial aid.

Generally, students are provided the work-study program as a part of their financial aid package. The Mānoa Career Center coordinates the work-study program. Job opportunities are available in many fields and require skills ranging from entry-level to highly technical. Community service jobs are also available, including tutoring positions in the America Reads and Math Counts Challenge. For further information, see the “Student Life” section of this Catalog.

Standards of Satisfactory Academic Progress for Recipients of Financial Aid

Satisfactory Academic Progress. To be eligible for federal, state, and specific institutional aid programs, you must meet all three Satisfactory Academic Progress (SAP) standards regardless of whether you have received financial aid previously. For more information, visit manoa.hawaii.edu/fas/financial-aid-policies/satisfactory-academic-progress-sap-policy.

GPA Standard. Maintain minimum grade point average (GPA) standards. Undergraduate students must maintain a minimum cumulative GPA of 2.0 or as required by the student’s specific program of study. Graduate students must maintain a minimum cumulative GPA of 3.0 or as required by the student’s specific program of study. The cumulative GPA includes all courses attempted by degree level at UH Mānoa. Students on academic suspension are not eligible for financial aid.

Pass Rate Standard. Students must pass at least 67% of all credit hours attempted during the academic year at UH Mānoa. Measurement of each student’s pass rate will occur at the completion of each spring semester. Grades of W, F, I, NG, and repeated courses are not considered to be adequate grades for completion.

Maximum Credit Hour Standard. Undergraduate students must complete their undergraduate degree with less than 180 attempted credit hours (e.g., 150% above the 120 minimum credits for a baccalaureate degree). Master’s program students must complete their degree within 4-10 semesters based on the minimum number of credits required. Doctoral students must complete their degree within 14 semesters (includes master’s degree credits). All courses you register for or transfer to UH Mānoa are included in the maximum credit hour standard.

Enrollment Status for Recipients of Financial Aid

Courses that do not count toward a student’s degree cannot be used to determine enrollment status for financial aid purposes. Students may receive aid to repeat a previously passed course one additional time.

Graduate Assistantships

UH Mānoa offers assistantships to graduates of accredited institutions of higher learning who have satisfactory scholastic records, an adequate undergraduate background in the major program, and evidence of a high level of English proficiency. Graduate assistants, chosen on a competitive basis, serve as part-time teaching or research assistants. A graduate assistant must be enrolled in a classified master’s or doctoral graduate program (see Master’s Degree programs and Doctor of Philosophy programs). Graduate certificate, PBU (post-baccalaureate unclassified), law, medicine, Shidler College of Business (master’s only) students are not eligible for graduate assistantships. All graduate assistants must be registered for and must complete at least 6 credit hours of degree-related course work each semester, while holding the assistantship. Moreover, they must maintain at least a 3.0 GPA to continue in the position. The maximum course load typically is 9 credit hours. The period of service for each year for teaching assistants is typically from two weeks prior to the beginning of instruction through spring commencement; research assistants normally serve for 11 months. Graduate assistants are awarded tuition exemptions, but they are not exempt from the general fees, special course fees listed in the Catalog, and the Graduate Student Organization fee. Applications should be sent to the chair of the appropriate department before February 1. Each application must be accompanied by three letters of recommendation from former professors or employers.
Information on assistantships and application forms may be requested from the chair of the appropriate graduate program.

**Graduate Fellowships and Scholarships**

Applicants are advised that UH Mānoa has joined the Council of Graduate Schools in approving the following resolution:

Acceptance of an offer of financial aid (such as a graduate scholarship, fellowship, traineeship, or assistantship) for the next academic year by an actual or prospective graduate student completes an agreement that both student and graduate school expect to honor. In those instances in which the student accepts the offer before April 15 and subsequently desires to withdraw, the student may submit in writing a resignation of the appointment at any time through April 15. However, an acceptance given or left in force after April 15 commits the student not to accept another offer without first obtaining a written release from the institution to which a commitment has been made. Similarly, an offer by an institution after April 15 is conditional on presentation by the student of the written release from any previously accepted offer.

Graduate Division has available general information on fellowship competitions open to American graduate students and administered by outside foundations or agencies. For application purposes, it is important to distinguish between (1) those awards made directly by the sponsoring agency to individual students and administered by an institution, and (2) those awards made by the sponsoring agency to an institution to be awarded, in turn, to students for study at the specific institution.

Awards in the first category are generally made by national organizations and allow students to choose their institution of affiliation. Applications are submitted by students to the sponsor, usually in early fall preceding the year graduate study is to begin. The National Science Foundation Graduate Fellowships program is an example.

Awards in the second category, which vary in source from federal to local, include a large number of programs. At UH Mānoa, nominations for these awards are generally made by the graduate programs that are eligible. In some cases (e.g., Fulbright awards), the student may apply through Graduate Division. Students are urged to exercise their initiative to explore the various possibilities. Initial inquiries should be directed to the chair of the program.

Information on fellowships is available by checking the following website: manoa.hawaii.edu/graduate/content/fellowships-scholarships.
