

CHEM 273
Spring 2017
Approximate Lecture Schedule

Dates	Chapter	Topic
01/09/17-01/13/17	12	Spectroscopy: IR and Mass Spec
01/18/17-01/30/17	13 (+ 10.9)	NMR
02/06/17-02/10/17	16	Benzene and its derivatives
02/13/17 (M)	Hour Exam 1	Chapters 12/13/16
02/15/17-02/20/17	17	Allylic and Benzylic Reactivity
02/22/17-02/27/17	18	Aryl halides and phenols
03/01/17-03/06/17	19	Aldehydes and Ketones
03/13/17 (M)	Hour Exam 2	Chapters 17/18/19
03/08/17-03/15/17	20	Carboxylic acids
03/17/17-03/22/17	21	Carboxylic acid derivatives
03/24/17-04/07/17	22	Enolates/enols
03/27/17-03/31/17	Spring Recess	
04/10/17 (M)	Hour Exam 3	Chapters 20/21/22
04/12/17-04/19/17	23	Amines
04/21/17-04/24/17	26	Aromatic Heterocycles
04/26/17-05/03/17	28	Pericyclic reactions
05/08/17 (M) 9:45-11:45 AM	Final Exam	All of the above

Chapter numbers refer to the text by G. Marc Loudon and Jim Parisi "Organic Chemistry" 6th edition W. H. Freeman Publishers. The 5th edition has all of these chapters, albeit under a different number in the later part of the text. The chapter title is important, not the chapter number. The 5th edition is perfectly acceptable.
