Jamie should consider a **Daily Pass** for the days she is required to come on campus as it would be cheaper to pay in advance a few days per week than secure a semester permit.

To save money, she may also consider taking TheBus since the U-Pass Program covers bus fares for full-time students.

Keola should consider the **Monthly Afternoon Permit** as it is the most cost-effective option. If he needs to meet his colleagues on campus from time-to-time, he might consider purchasing a **Daily Pass**.

Since Alyssa must be on-campus every day of the week she should try to obtain a **Semester Parking Permit**. As a senior, she has a better chance of securing a Semester Permit since availability is limited and priority is given based on class standing.
