

# Undecided about your career path?

The Counseling and Student Development Center (CSDC)'s **career counseling services** can help you explore and identify career options, make informed decisions about your future, and develop strategies to achieve your goals. It can be beneficial at any stage of life, whether you are just starting out or looking to make a career change.

Services include 2-3 sessions with a CSDC clinician that integrate assessments and exercises, such as the Myers-Briggs Type Indicator (MBTI), Strong Interest Inventory (SII), and values sorting, which can help you to discover career possibilities that better align with your personality preferences, interests, and values.
