

**Table 4.10.** Options for observing water movement at different depths

<b>Water Depth</b>	<b>Options for observing movement</b>
Surface	Boats Corks
Mid-water	Corks tied to with sinkers with monofilament line so they float mid-water. Bits of paper disintegrated in the water. Food coloring added mid-water with a pipette.
Bottom	A small amount of sand. Food coloring added with a plastic pipette to the bottom of the tank.
