The Japan Society for the Promotion of Science San Francisco Office (SFO) invites the Center for Japanese Studies (CJS) at the University of Hawai'i at Mānoa (UHM) to serve as one of its FY2024 recommending university centers. JSPS SFO invites CJS of UHM to suggest one to two candidates to JSPS SFO for the FY2024 Postdoctoral Fellowship for Research in Japan (Short-term), only one of whom will be selected. These candidates are expected to be eligible persons (as indicated in the provided guidelines) who focus on Japan and/or Japanese-related studies in their respective fields. JSPS SFO gives CJS of UHM the liberty to recommend candidates with discretion based on its scientific evaluation.

Signed:

Professor Yusaku Nakabeppu, Director, JSPS, San Francisco
