Local Schools Have Over 300 Koreans, Report
ABOUT 300 CONSTITUTE THE TOTAL ROLL CALL IN SCHOOLS
IN THE UNIVERSITY

OVER 40 IN MCKINLEY, 18 IN JOLANI S. IN NORMAL AND 71 IN M. P. I.

Over 300 Koreans here and also are attending schools in Honolulu, according to a recent survey made by the Young Koreans. This is the largest number of students in any one Korea school on the islands, except Korea itself. While the figure doesn't indicate a marked change from one of the last year, there is reason to consider a gradual tendency toward increased interest in Korean education, which reason should ensure a profit of this fact.

Of the total 300, fully 126 boys and 174 girls are in the elementary, secondary and high schools, who have been admitted to the various universities in the islands. A group of about 300 other educational people are scattered throughout the island, the number of whom in the primary school work is not known. The largest center of this people is in Honolulu, mostly in the city and in the suburban areas where they have their homes.

Their school work is entirely in the language of their native land, Chinese.

Among the primary schools in the city where Korean children are enrolled, Royal and Kapihala have the largest number, while the preparatory school is found in the Kapihala and Kaimuki schools. There are three in Central Grammar, a school in Honolulu, and one in Kaimuki. The school in Kaimuki is one of the leading Korean language classes.

United Welfare Campaign Is On
For $409,000.00

Supposedly well known.

With this definite financial objective as its guiding aim, the annual United Welfare Drive of Honolulu has been commenced from Monday for a period of five days. To raise $409,000.00 is to be used in maintaining 21 charity organizations of the community, including the Nunnun Y. M. C. A., which is assumed to be held by this year.

One of the results of social workers, ladies outstanding in the work, have volunteered their assistance in planning an effort to raise a total contribution of $409,000.00. The annual mission in the community is a result of the efforts of Miss Hui Hing of the International Institute, and the success is expected to be equal to or better than the previous meeting.

K. C. C. Giants and M. E. Tigers are scheduled for their final meeting of the season on November 22nd. All indications point to a game of the best type of the season, as both teams are evenly matched. However, the K. C. C. Giants' guess is as good as an

One of the most successful outings of the season was witnessed by the South Korean League when the K. C. C. Giants downed the M. E. Tigers in a thrilling game. The game was played in a hostile atmosphere, the bleachers were jammed with enthusiasts, the stands were adorned with flags, the grandstands were filled, and the spectators were on the edge of their seats.

The cool, clear weather during the entire game was an added incentive, and the enthusiastic fans, who were all present, set the tone for a thrilling contest.

The game was played in the most exciting fashion, with both teams fighting hard to gain the upper hand. The K. C. C. Giants showed their strength in the early part of the game, and the M. E. Tigers made a determined effort to catch up, but the Giants held firm. The game was a credit to both teams and to the spectators who were on hand to witness it.

MEMBERS AND FRIENDS ENJOY FIRST ANNUAL OUTING AT PEARY CITY

One of the most successful events of the season was the annual Armistice Day outing of the University Club. The day was ideal and so was the mood of the happy picnickers, who spent the entire afternoon in hiking, games, and conversations.

It is with some measure of regret that we note the large number of boys and young men of school age flitting about aimless and seeking companionship, where and with whom they can do without the necessary number of boys belonging to the same age group have dropped out of school this year, so that they are unconnected with the business of running schools. Of course, not all of them are in such a hurry to get on account we have some who have not ceased their studies, and in many cases, are preparing to sell all of their books, as they are about to leave school on account of vacatior. This is further evidence that the majority are those that are educated.

ROCKY MAGAZINE MAKES INITIAL APPEARANCE

The much-awaited Rocky Magazine, official organ of the Rocky Mountains of North America, has, after considerable delay due to the exigencies of war, finally made its appearance last month in a blaze of glory. About 250 copies were sent to The Young Korea for distribution in Hawaii (thus, where the magazine was printed). It is printed entirely in Korean.

Ther is a growing demand for this issue issue: "To Our Students" by Dr. Bruggemann, "Living a Happy Life" by Mr. Young Seung, "The Preparation for International University" by Dr. Y. S. Kim; "History of Korea, Technolo-
gy" by K. B. Park, and "Shorthand and Education" by Miss Helen Kim. Aside from these, contributions from 22 other distinguished writers, noted for literary accomplishments, are included in the contents.

The Young Korea as a result of World War II, has been temporarily suspended. Now that the war is over, it is time to think of the future. The war has done much to disturb the plans of the Korean people, but it has also taught them the value of education. It has taught them that knowledge is power, and that without it, they are helpless in the face of adversity.

The Young Korea has been one of the few newspapers in Korea that has been able to continue publication throughout the war. It has not only maintained its circulation, but has also increased it. This is a remarkable achievement, and it is a tribute to the determination and perseverance of the staff and readers of The Young Korea.

The Young Korea has been a leader in the struggle for independence and freedom for Korea. It has been a voice of hope and inspiration for the Korean people, and it has been a source of strength and encouragement in their struggle against oppression and injustice.

The Young Korea has been a friend to the Korean people, and it has been a champion of their cause. It has been a beacon of light in the darkness of ignorance and oppression, and it has been a symbol of hope in the face of adversity.
