

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
1		Group of bound cards, approx 5" Group of loose cards, approx 7"		loose hand-written notes, 8" x 5" print-outs loose hand-written notes, 8" x 5" print-outs, citations, abstracts; program flyers, clippings, etc.; 8" x 5" pack of cards and paper with pink index card labeled ALS and "Guam Misc"	citations ,abstracts, subdivided by Family and order: Cycad
1		Group of loose cards, booklets		8" x 5" Zatoperk cards and paper labeled "G26 Guam food shortage."; 8" x 5" pack of cards and paper with pink index card labeled ALS and "Guam Misc"; some booklets on top	Abstracts and citations include references to cycasin, cycad Family, toxicity and "carcinogenic effects of cycad meal."
2		Group of loose cards		approx. 4" of loose cards and paper, some photostaticcopies, research on food use, food and nutrition, Africa, esp. Ghana.	
2		Group of loose cards, booklet		cards and papers - citations, some abstracts re: woody plants, tubers, mostly Africa, Ivory Coast, Gold Coast, Nigeria; subdivision "Miracle.";approx. 1" loose material giving directions for preparing assorted foodstuffs; cards and papers re: food and nutrition in Africa, names of and preparing Ghanaian dishes.; agriculture, food economy, traitions, Gold Coast Africa, esp. Ghana. ; approx. 1" loose material re: food resources, food analysis, deficient diets.; packet labeled "Food File Ghana" cards with notes on definitions and various recipes from Africa and "tropical America," subdivided into mea, fish, etc.; pub. How to Control Your Weight by Metropolitan Life Ins. Co. copyright 1958.	
3					
4		**initial packet filed on long edge in original rc box.		approx. 4" of citations and abstracts and notes on 8" x 5" Zatoperk and index Chamorro changing customs; Philippines - foods introduced with Spanish, Jesuits taught agriculture. [Seems some info abt. Guam may be mixed in with the Philippines.] Japanese occupation of Guam and food available during post-war period.	**cards and paper re: ALS, [lytiko?] other diseases in Guam, several pages of health histories.
5		**central column packet in original rc box		8" x 5" Zatoperk and index cards and paper, approx. 9.5 " high; notes, citations, etc, lathyrism, livestock, food distribution programs/agencies, famine/disaster; toxins/insecticides; plants used as vegetables or seasonings; food stuffs, cooking methods, illnesses. Taboos and attitudes related to food. References in alpha order A-P. Brief section on trace elements & soil, additional citations.	**Typed notes "Umatic - Feb. 1954 Chamorrans." "Ref. file, plants, Toxic Plants Neuro?" Family graph and health history.

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
6		**last packet along back wall of original rc box		8" x 5" Zatoperk and index cards and paper, notes, citations, etc.; various subjects: food patterns, nutritional needs and agriculture worldwide. Also medicinal plants of Palau, Yap, other South Pacific islands. Some notes on diet, statistics, diet, food supply; maternal-infant food practices, practices re: umbilical cord, breast-feeding and weaning. Milk production of various animals, food production.	**Stories source and informants on Guam recount time before arrival of and during time of Spanish occupation, food/feasts; notes on toxicities of plants for animals and people.
7		letter-size folder on left side of box, labeled #5097		Zatoperk System card annotated "Robin" and citation "Food Preparation..." stapled to 8 1/4" x 13 " paper "Recipes" in upper right, title "Thai Processed Food Products;" "Table 1 Method of Salting and Drying..."; "Natural Enzyme Hydrolysis...", etc.	
7		left side of box column of cards		approx. 10" loose material, essentially all 8" x 5" with some exceptions citing food-borne diseases, nutritional requirements, vitamins and minerals; medicinal plants, cycads; Dr. Whiting's business card; 2 1/2" x 1' b/w photo, no identification; fish & pig poisoning; soil; plant use in various countries; Ponape medicine; reference; genealogy, vocabulary; bilingual collection of legends from Pohnpei.	References to cycads, neurotoxins, carcinogenic plants, famine, undernutrition.
7		right side of box column of cards		approx. 16" loose material, on 8" x 5" index cards, paper, few Zatoperk cards; citations and abstracts re: chemicals/additives in food, insecticides/pesticides and related toxicities; published bib "Infant Nutrition in the Subtropics and Tropics...1955;" citations for diet and nutrition surveys, dietary studies various countries and tribes; cycads, toxic plants, medicinal plants and their effects. Lists of food items for various cities in Brazil. Notes on various plants and their uses as food, medicine and their toxicity if any. Numerous index cards noting genus, species, common names for plants used by people of Guam for food and/or medicine.	citations re:cycads, toxic plants, medicinal plants and their effects; carcinogenicity of cycasin and/or methylazoxymethanol (MAM)
7				Foods of Japan: ancient and modern foods in subgroups - sweets, fruit, nuts, bean, rice, plants, etc.; Fests (Japanese ceremonies/Ceremonials involving plants, beverages, rice; Regional foods of Japan: Edo [old Tokyo,] Kyoto, Kamakura and Enoshima [in Kanagawa Prefecture] and soups.	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
7				<p>Section "Brazil misc.," includes tabus, citations, "incidental info," notes on arsenic, trace elements, Pb [lead.] soil stats on different areas o Brazil, vocabulary, plant names. Notes on nitrates, "Fish Poisoning - Cycad Starch," approx. 1" illness, fish/fish poisoning; "Early Summaries;" Cards labeled "Calc of cards labled "Guam plants" followed by Cycas. vs. Analy," "Period," "Applic;" "Bibliography-Micronesia and Japan;" Ponape notes, "Japan notes;" several pages of family graphs and health histories, illness, funeral, christening, burial, in Umatac [Guam]; Meals-Yigo [Guam;] notes on toxicity of cassava and manioc; small group of cards "75. Athero" [atherosclerosis]; notes on food eaten during the war in Umatac; food use and prep in Arctic, esp. fat; small group of cards noted "Papilionatae" [suborder of Leguminosae] and "lolism ?" one card several numbers, meaning? Compositae, plants and uses; Rubiaciae 210, plants and uses (Coffee,) Solanaceae 199, plants and uses (Nightshade,) Convolvulaceae 186, plants and uses (Morning glory,) Euphorbiaceae 121, plants and uses (Spurge);</p>	
7				<p>several sections on lathyris/odoratism [illness caused by ingestion of sweet peas is known as odoratism, or sweet pea lathyris; sections on fats-parts and use in Arctic; Porphrins [sic] several browned, folded pages on porphyrins; additional Zatoperk cards on other plant Families, specific plants, toxicities, uses, common names;some notes on fish and toxins;Recipes for Ms. Johnston; booklet "The Effects of High-Yield Nuclear Explosions," February 1955; citations re: poisoning due to lead and zinc; notes on various other toxic plants and mechanism of action; cards grouped "Sept 1959;" short section on animal experiments; 2 small groups: "Bev, Tea,Herb;" "Veg;" remaining cards and papers citations and notes on various subjects.</p>	
8		Spiral bound, 9 1/2" x 6" notebook inscribed with Whiting's name on front cover		Primarily journal citations and other references; also notes to self, names of people and phone numbers; several blank pages.	
8		Folder: Neuro 3		medical journal articles, reprints or removed from journals re: various topics.	
8		Folder: Index to Cancer		letter to Dr. Whiting from V. Rubin re: research with vincalcekoblastine; "Appendix B, Index to Epidemiological Studies...;" "Index for Current Studies"..."; "Priority for selection of epidemiological studies of cancer* for Project entitled Diet, Nutrition and Cancer."	
8		Folder: Oncology - "Cancer in 5 [Five] Continents		photocopy of article by Prof. Sir Richard Doll, Proc. Roy. Soc. Med., Volume 65 January 1972.	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
8		Folder: Cancer Notes		Overall relationship of carcinogens and diet. Citations in professional literature re: chemically induced liver diseases, including liver cancer, in animals and humans. Aflatoxin (poison from a fungus that can grow on foods, such as grains and nuts, that have been improperly stored - WebMD Public Information from the National Cancer Institute accessed 2/24/09) mentioned as a causal agent several times; other G-I cancers also cited, fiber in diet; comparative studies of ethnicities in Middle East.	
8		**Folder: Cancer & Disease		**Charts delineating Cancer and Diet/Diet and Nutritional Status in different areas of Asia; citations re: several cancers and diet in Middle East, other ethnicities; diet and nutritional status vis-à-vis other chronic diseases; some dups.	
8		Folder: Diet, Nutrition & Cancer Study		Appendix A, Directory to Diet, Nutrition and Cancer Studies (Level 2 Reviews...June 30, 1977") draft with handwritten additions/corrections in pencil and pen, maps of various countries and world maps inserted;	
8		Folder: Cancer		Primarily citations, few abstracts and articles re: various cancers worldwide.	
8		Folder: UN Mission to Pacific Islands Guam 4817		"United Nations Visiting Mission to the Trust Territories of Nauru, New Guinea and the Pacific Islands, 1959. Report on Nauru...(2 June - 6 August 1959)..."	
8		Folder: Rx [cross-reference ?] for Editing		Charts inside front and back cover "A Summary Sheet, "Diet & Cancer and "Cross-Ref in Directory from Directory;" citations and abstracts re: cancer epidemiology in various cancers, food surveys.	
8		**Accordion folder annotated "dup US"		loose material in front of manila folders - few citations & abstracts, other references to different cancers, review forms for nutrition study; citations/abstracts, few journal articles re: various cancers in variety of populations in U.S.	
8		folder marked "dup West Virginia, New Jersey"		Short article on N.J. ban on carcinogens; newsclipping from Washington Post stapled to back of folder re: DuPont chemical plant in W. Virginia and incidence of cancer among its employees.	
8		"Canada D/NS dupl..." and 513		Canadian Eskimos/Indians, Greenland Eskimos and nutrition.	
8		"US Cancer 522 dupl;" 529 on tab:		"Statement by Theodore Cooper, M.D. ...on Nutrition and Human Needs United States Senate, Tuesday, July 27, 1976; Notices re: research on several different cancers; citations, few journal articles on various cancers in U.S.	
8		US D/NS 523 dupl; US Nutr 523 on tab:		Routing slip attached to study "Radiological Surveillance of Total Diets in Select Locations..." 3 handwritten journal references clipped together with note, "dupl USA."	
8		"525 D/NS dupl;" New Eng 525 on tab		Few citations, 1 abstract re: diet/nutrition in Vermont, Connecticut and Massachusetts.	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
8		Cancer Notes		Citations regarding several cancer types, occurrence, some related to diet/food habits.	
8		Cancer Research		Group of print-outs and citations clipped together with note, "Next x around;" citations: neoplasms, neoplasms and diet, carcinogens and diet; review of lit. for several cancers, project abstracts in nutrition and health	
8		Bibliography Mutagens 5051		Several pages of Dialog SearchFile6 results; few citations from other reporting systems and medical literature on mutagenic test results and evaluations.	
8		Cancer - Toxic Foods		Journal article re: plant used for treatment from Ukraine; report from U.S. Congress, Office of Technology Assessment, "Environmental Contaminants in Food, December 1979;" Bibliography from U.S. Dept. of Agriculture, "...Harmful Effects of Chemicals Produced by one Plant upon Another...", March 1981; Citations/abstracts, journal articles re: diet and nutrition, food additives, toxic substances/carcinogens, vis-à-vis various cancers.	**April-June 1968 issue of Economic Botany [article Cycad Husk from Guam..." cut out per note on cover of issue; *copy of "Technical Proposal Literature Study...Populations in Relation to Diet...Submitted by Checchi and Company..." May 4, 1976 [Dr. Whiting was P.I.]
8		Folder: 4271 [?] 4271 [?]		Minutes of the 29th Meeting of the...Group on Environmental Carcinogenesis...December 9, 1976; Dialog Search File10 results for nutrition, food-related disorders, carcinogens; list of publications and bibliographies; citations from professional journals re: assessment of nutritional status and dietary surveys of different ethnic and age groups ; ; 4 page pam "Fermented Foodstuffs in Use in Various Parts of the World, "...Conference on Nutrition, Gambia 1952...; one article in Japanese about human cancer, no translation; additional citations re: carcinogenesis of various cancers.	various hand-drawn tables for methodology of a study?; several pages of hand-written notes of references [by call number?] for particular subject, ex., biochemical tests, nitrosamines, etc. typed note addressed to Regina Schoental, n.d., re: "cycad starch" as stored food on Guam;
8		Cancer India duplicates on note, 146 on top right of front of folder; India on folder tab		Data collected and sources cited re: various cancers in India.	
8		Cancer 4832		Notices or research projects re: food and nutrition; collection of data, citations and abstracts re: various cancers worldwide; various cancers and chronic pathologies, ex. diabetes, hypertension, etc. and nutrition in various countries. Reprint of Jnl of the National Cancer Institute, 41: 155-203, 1968. "World Maps of Cancer Mortality Rates...". Citations and abstracts about exposure to numerous environmental factors, other risk factors in relation to cancers.	reprint "Phytogeographic Relationships in Cancer.../Roger O'Gara, M.D. notes Cycad (Zamia) in Table 1 on p. 167 as having Cycasin, an identified carcinogen. The reference on p. 171 includes Dr. Whiting and the source.

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
8		HRAF [Human Relation Area Files] 4687		Several pages annotated, "Murdock, George P., ed, Outline of Cultural Materials, 3d Rev. Ed. Human Relation Area Files, Inc., New Haven 1950, p. 18-27;" Zatoperk card duplicating much of info on Murdock outline; article, "Summary of the Informal Discussion on Physical-Chemical Factors"/Paul Kotin.	
8		Folder: 4568		notes made on comments from article on another article about pancreatic ca; list of factors considered re: study, ex., methodology, funding, etc., and associations, correlations discerned.	
8		Folder: Change 4548		Citations and one jnl article regarding changes in diet and nutrition.	
8		Folder: Selected Out Aust		Citations and abstracts re: cancers in New Zealand, US compared to Samoa, areas of the Philippines and Australia.	
8		Accordion folder (no manila folder:) head and neck 36R		Notes tracking citations in folder re: etiology and epidemiology of head and neck cancers and whether they have diet, nutrition components and geographical location, etc.	
8		Folder: Cancer bibliography 4835		Appears to be 2 complete bibliographies from unk. sources. First is paginated 57-69 with no annotations; 2nd bib. appears to be from a later edition- most references are the same with some changes or additions. Annotations made in pencil along right margin. This bib is also paginated 57-69.	
8		Fat PUFA [polyunsaturated fatty acids,] SFA [saturated fatty acids], ALE? AIE?		Research re: fat and cancer rates; pufa vs. sfa vs. "prudent diet" and effect on serum cholesterol level and cardiovascular health.	
8		Cancer / Draft Rx		Appears to be draft of publication detailing nutrition and its role in carcinogenesis taking other factors into consideration, such as ethnicity, food practices, etc.	Includes recommendations for populations to monitor, bibliography, citations, notes for MGW to attend to, changes to make, etc.
8		Metabol		article, "Passive Immunity against Childhood Cancer", citation re: chemical carcinogens, hand-written notes re: effects of MAO inhibitors with tyramine and those foods.	MAO [monoamine oxidase] inhibitors are anti-depressants that interact with foods containing tyramine resulting in serious cardiovascular problems. http://www.webmd.com/depression/guide/optimizing-depression-medicines?page=2 , accessed 3/5/09.

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
8		Goitre [sic]		publication, "Food and Nutrition in Africa," photostatic copy of article re: New Guineans and goiter; citation: foods with goitrogenic properties; draft RFP - Thyroid and Breast Cancer.	
8		Floride [sic] FI		copy of memos from NIH to Sen. RFK, Mrs. Alfred Sherman re: controversial "Warberg concepts of cancer control;" Burke Report, "Fluoridation-linked Human Cancer Mortality;" Congressional Record - House, December 16, 1975 re: fluoridation in drinking water supply and link to cancer.	MGW marginalia here and there. Some files transferred to legal size folder
8		Floride [sic] FI		copy of memos from NIH to Sen. RFK	Transferred from "Floride [sic]" folder
8		Cancer References		multiple bibliographies from various sources	Couple of pages near end of folder appear to be water-stained, but legible
8		Found loose in Collection		Booklet, "Carcinogenesis Related to Food...;" compilation, "Cancer in Sub human Primates," "Morphology and Classification of Kidney Tumors in Wistar Rats..." by Gusek.	paper by Gusek notes studies done by Laqueur and coworkers re: cycad meal and cycasin.
8		Cancer		citations, several issues of "Cancergram" containing abstracts of cancer-related articles, "Dairy Council Digest," translated article from Russian re: effect of ginseng plant vs. Ehrlich's ca; inc. article, "Serum pepsin...;" several citations on short pieces of paper; reprint of article, "Studies on...Taurine."	
8		Cancer incidence		article, "Gastric Cancer in American Negroes."	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
8		Hawaii Diet (Cancer)		citations and abstracts re: cancers in Hawaii, ethnic differences, risk factors; hand-written notes; article on studies of cancer in migrant populations, etc.	
9		Binder, black, 1 1/2"		labeled "Pacific Ref;" photocopies of proposed studies, citations and abstracts re: neoplasms, chronic diseases in areas of the Pacific.	
9		Binder, green, 1 1/2 "		Labeled "Nitrosamines" on spine; contains articles, some in original language, some trans. re: structure and effects of nitrosamines on various organs.	
9		Loose material found in collection Folder 1 of 5		Miscellaneous news clippings, newsletters, conference program with handwritten notes; wide range of dates.	
9		Loose material found in collection #2		Labeled "?" primarily search results - citations and abstracts, hand-written notes.	Thank you note written to MGW from Harold L. Stewart, M.D., 1992 in receipt of book.
9		Loose material found in collection #3		The Limitations of Science / J.W.N. Sullivan	paperback book
9		Loose material found in collection #4		"A Program for Combatting Malnutrition in Preschool Children in Thailand...April 26--May4, 1966.	
9		Loose material found in collection #5		<u>Current Research on Cancer Etiology and Epidemiology: Non-viral Aspects</u> , June 1975	
9		2 loose index cards, 8 1/2" x 5"		bibliographic citations	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
9		~ 1" packet of Zatoperk cards, index cards and paper, 8 1/2" x 5"		grouped and labeled, "For your (<i>our</i> inserted above) finished cards" divided into plant Families including Cycadaceae or Cycad Family.	The cards on Cycadaceae scanned
9		~ 2" loose Zatoperk cards, index cards and paper, 8 1/2" x 5"		notes on more plant Families; notes divided by month and year (some appear to be related to travel); food and medicinal uses of plants; notes from informants on Ponape re: use of foods; citations re: microorganisms and food; notes, other materials on cycads.	notes on Zamia/Macrozamia in Australia, Japanese cycad.
9		~ 1" grouped Zatoperk cards, index cards and paper, 8 1/2" x 5"		more notes on Australian and Japanese cycads, also South Africa, the Pacific, India, other regions of the world, how the plants are used, prepared.	Copy of "Some Notes on Cycad Uses and Hazards" presented by Morton, Fifth Cycad Conference, 1967 who mentions MGW.
9		Card Box annotated "Diet of V. [Various?]"		~1/2" 6" x 4" index cards with citations - few have short notes.	
9		Cultural Groups"		Index card labeled "Oceania" cards and papers with citations, some abstracts/notes on food practices and diseases of various Pacific peoples.	
9				Index card labeled "South America" cards and papers with citations, some abstracts/notes on poisons, food practices and cultures of various South American peoples.	
9				Index card labeled "Newton" card of hand-written notes and "Newton" in upper right hand corner; card with few citations and notes.	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
9				Index card labeled "Middle East" cards and papers with citations, some abstracts/notes on food practices and diseases of people in Middle Eastern countries, including immigrants to those countries.	
9				Index card labeled "Russia" cards and papers with citations, some abstracts; several pages of notes on food practices, diseases and hunting of the Yakut people.	
9				Index card labeled "Navajo" one paper with citation and notes, "Navajo" in upper right hand corner; 2 cards with citations.	
9				Index card labeled "Mexico" citations, abstracts and notes from references on diet, nutrition and plants in Mexico.	
9				Index card labeled "Asia" cards and papers with citations, some abstracts/notes on food practices and diseases of peoples of Asian countries.	Postcard (not canceled) from MGW to Miss Elda Robb in Boston.
9				Index card labeled "Europe" cards and papers with citations, notes/abstracts on nutrition, disease of some European countries.	
9				Index card labeled "North America" cards and papers with citations, some abstracts; ~ 1/2" packet labeled N.A. Cultural Groups - primarily references to Native American groups.	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
9				Index card labeled "Arctic" cards and papers describing plant Families and Genera used by Arctic peoples, mainly for food. Some citations and abstracts. Group of cards labeled "Arctic - author" has citations, some abstracts, typed and hand-written notes on diet and foodstuffs of Canadian Indians, Eskimos. Cards groups with label "Arctic - Cultural groups" sheet referencing diet patterns; <u>Eskimo Cook Book</u> by day school students; notes esp. about Kaska and Copper Eskimo.	Letter to MGW from author, Chief Botanist, Dr. Porsild re: his article about edible plants of the Arctic. Some notes on Arctic toxic plants and polar bear liver in certain river inlets.
9				Index card labeled "Chaga" cards and papers describing food practices of Chaga people from several references.	
9				Index card labeled "Geog. Areas" no cards follow	
9				Index card labeled "Africa" ~ 2 1/8" cards and papers, references describing food practices, nutrition of African peoples; several short paragraphs - pg numbers? on cards with alphanumeric notation in upper right. Many notes on the Azande people.	
10		Cycad Poisen [sic]		journal articles; notes on <i>C. circinalis</i> in the E. Indies from several references; correspondence from V. Palmer; paper re: environmental carcinogenesis; booklet re: assessing chemical carcino- and mutagenecity; articles on cinnamon and 'birdsville disease."	Draft from V. Palmer to MGW "suggestions from the group in NYC" highlights Whiting's "classic review on cycad toxicity" which was apparently a topic of great interest and discussion for cycad conferences and publication of proceedings.
10		Folder: Loose material found in collection #1		journal articles with duplicates of some pages.	
10		Folder: Loose material found in collection #2		material re: bracken toxicity and carcinogenicity from various sources.	bracken is a plant that apparently poisons farm animals in the UK.

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
10		Toxic Plants & animals #5953		articles, citations, abstracts re: toxic plants and effects; pages of notes on plant families and "active principle" of each	**memo from MGW to MR Fox January 29, 1962 "List of Plants for Comparison of Active Principle (Neurotoxic?) lists both Leguminosae and Cycadaceae.
10	17 Toxic			poisonings of humans via ingestion of house plants;	
10		Folder: Loose material found in collection #3		articles re: kuru [a progressive fatal disease of the brain - WebMd, accessed 3/6/09]; cancer pts.; plant evaluations and biochemical studies on cycad trans. from Japanese; Linnean Society Proceedings; info on trace elements, physical and chemical carcinogens.	
10		Toxic Foods 4498		notice of research re: cadmium mining; reprints from Pergamon Press; poisoning in pigs; 2 bibs from USDA, copy of tp? "Famine Foods..."	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
10		Folder: Loose material found in collection #4		Various materials, journal articles, booklets, etc., re: toxic plants, nutrition, 1 article on Tay-Sachs trans. from Polish; collection of various abstracts; article re: thiols as carcinogens.	
10		Folder: Loose material found in collection #5		primarily articles and booklets re: diseases of the central nervous system, particularly kuru.	
10		Folder: Loose material found in collection #6		various papers and articles on variety of diseases affecting humans and animals; more info on kuru.	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
10		Folder: Loose material found in collection #7		articles re: various pathologies in humans and animals related to food or plants.	
10		Folder: Loose material found in collection #8		articles re: various toxins; reprints of articles about dietary agents and tumors; fungal infection in sheep; trans. from German of 2 articles re: blood-brain barrier and drug damage in the fetus and newborn.	
10		Meeting Neuro # ___ 5770 on front cover		Proceedings of Conference on the Neurological Basis of Behavior...Honolulu, HI. May 1-4, 1964...	p. 27 marked with paperclip notes amyotrophic lateral sclerosis, MGW's groundbreaking work on Guam and other conditions. p. 28 discusses Minamata disease which MGW apparently found interesting enough to mark.
10		Folder: Loose material found in collection #9		2 copies of reprint "Plants and Fungi as Etiologic Agents of Cirrhosis" from N. Eng. Jnl of Med.	5772 hand-written on 1st copy, "Dunham" written on each and photocopy of notes with Dr. Dunham written at top.
10		Economic Botany, Articles by M Whiting on Toxicity of Cycads		4 copies of reprint from Economic Botany Vol. 20, No. 1, Jan-Mar 1966	Research Progress on Cycads, Marjorie Whiting, Maria Spatz and Hiromu Matsumoto
10		Arsenic Eaters		proposal for research into arsenic eating; article trans. from German on arsenical cancer; hand-written notes on articles with citations; other material re: arsenic	
10		Toxins		reprint from Pergamon Press - article re: cobrotoxin; article trans. from Japanese re: tetrodotoxin poisoning and article re: secretions of Indonesian toads	
10		Interviews on Neurotoxicity - Chemical biological Reaction		drafts with corrections of interviews with various individuals; papers re: cycasin, toxicology of cycads and mutagenicity of cycasin and MAM.	Suggestions made by MGW re: cycads/cycasins. MGW is part of some of these interviews: Morton, Read, Birdsey.
10		Plant Toxins 4368		tables re: illnesses caused by plant toxins; bibliography for trans. Mss on Micronesia; article on poisonous plants; taxonomies for several Families; typed notes related to ?;	**notes re: prep of food, esp. cycad starch or cycad flour in Guam, Okinawa, Jamaica, Australia.

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
10		Snake Venom		articles re: neurotoxins and other properties of snake venom, case study of poisonous snake bite, antivenin and antitoxin.	Tenth Pacific Science Congress, August 1961 re: poisonous animals.
10		#5090 Marine Toxins		hand-written and typed citations, notes on marine poisons and few on pesticides.	Notes appear to be draft for a paper or presentation.
10		Definitions Abbeviations		lists of definitions and abbreviations with notes and citations; neither list is in alpha order, not clear what lists are for.	
10		17 Toxic		articles and papers on environmental pollutants incl. lead poisoning, additives, trace elements; articles on medicinal plants, poisoning with cyanide, blurbs re: cases of poisonings and diethylstilbesterol (DES) in meat [1971.]	Reprint of Cycad Husk ... Guam... by Yang and Mickelsen citing Dr. Whiting's work.
10		SystematicTable		citations and abstracts re: diet and relationship to neoplasms, infectious diseases, hypertension, etc. Several pages of taxonomic system of several Families.	**Many hand-written notes on what appears to be study design on dietary practices. "Appendix Systematic list of plants and animals discussed in Table 1 and text."
10		Contaminants 4897		journal articles, newsclippings, booklets,	Photocopy of abstracts related to nitrates/nitrites has "cycad" annotated at top of page. Hand-written and typed notes re: environmental contamination, food additives.
10		Folder: Disable [?] -NLM 4672		On front cover of folder: "Pesticides", "Food Additives", "Coloring Agents." DIALOG File10 results (AGRICOLA search in veterinarian MGW. literature;) articles, papers, booklets, other citations and abstracts re: microorganisms as food additives, pesticides.	Article on cattle poisoning from cycad leaves cites
10		Bibliography Cancer		bibliography from unknown source; pen and pencil notes and references added.	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
10		Thailand		reprint "Chemical Investigation on River Waters...the Quality of Waters of Thailand..."	on front cover, annotated "Thai 4985;" p. 233 torn away from staples, (probably due to weight of diagrams that follow,) but intact in body of booklet.
10		Plant Toxins Japan		abstract, reprints, other papers re: central nervous system diseases, esp. multiple sclerosis and AML.	MGW is cited in Proceedings of the Mayo Clinic, p.462, #9.
11		Accordion folder annotated "Japan"		folder: loose material found in collection #1 articles primarily related to ethnic Japanese and diet and carcinogenesis; small soft bound book, <u>Shanghai Foods</u> with hand-written notes, some pasted in.	
11				folder: Japan - 105; largely citations of research done for various types of cancer; clipped together with note "Dupl. Japan."	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
11				folder: loose material found in collection #2 citations and abstracts related to diets and different cancers, endemic goiter in various African countries, ; copies of jnl pages,newsclippings;	
11				folder: Sea weed - article on marine flora, 2 c. catalogue of transparencies of Hawaiian limu; lists of Hawaiian marine algae; paper re: poisonous algal blooms in Minnesota; short brochures on breadfruit and guava.	
12a		Binder, green, 1 1/2 "		Labeled "Plants - Coding" on spine: binder divided in sections. First divider labeled "Toxic and Medicinal Plants and Other Natural Products Organization of Literature Search" on front and "Summary of Plans" on tab. Remaining sections are: "Suggestions for Coding;" "Resources;" "Examples;" some correspondence, journal articles, hand-written notes.	Transferred to Box 12b - Folders 1-4
12a	1	Loose material found in collection #1		journal articles re: indigenous medical practices (Guam hand-written at top of first page of La Medicina Indigena;) Letter to the Editor from BMJ re: pica; article "Health and Disease on the Island of Susak;" "Additions to the Flora of Guam."	
12a	2	**Folder: 5		duplicate c. of "Program for the Fifth Conference on Cycad Toxicity;" papers presented by various individuals on taxonomy, cycad uses and hazards, indigenous Genus in Florida; 2 mounted b/w photos of chicks, 1 pen and ink sketch.	**MGW participant in Discussion [Section XI-10 re: she compiled notes from reports of cattle ataxia "due to ingestion of cycad leaves."] also Section III-8 re: "yugillo de raton."
12a	3 (1 of 2)	**Folder: Guam Correspondence Must scan this		**MGW proposal "For the Study of the Nuts of Cycas circinalis as a Possible Etiologic Factor in Amyotrophic Lateral Sclerosis on Guam, July 1955;" correspondence, esp. letters from F.R. Fosberg June 9, 1955 and from L.T. Kurland, May 1955 with suggestions for publication. Other letters to/from colleagues with suggestions for further leads on Cycad and ALS, other neuro toxicities.	MGW documents previous work on subject and research plan.
12a	4 (2 of 2)	**Folder: Guam Correspondence Must scan this		**MGW proposal "For the Study of the Nuts of Cycas circinalis as a Possible Etiologic Factor in Amyotrophic Lateral Sclerosis on Guam, July 1955;" correspondence, esp. letters from F.R. Fosberg June 9, 1955 and from L.T. Kurland, May 1955 with suggestions for publication. Other letters to/from colleagues with suggestions for further leads on Cycad and ALS, other neuro toxicities.	
12a	5	**Folder: Guam Library Must scan this		"Report of Field Trip Draft - July 1958 Guam;" Introduction and description of itinerary, plan, the research questions.	**Carbon copy of preliminary report of trip to Mexico, California, Guam, Saipan, July 1957-February 1958 to search for leads "which might help to explain the higher incidence of amyotrophic [sic] lateral sclerosis among Guamanians."

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
12a	6	Loose material found in collection #2		single page re: Plant Family: Solanaceae hand-written not "Toxic plant in upper-right corner, reverse of page, notes on magnetic North; <u>Conference on the Toxicity of Cycads (Fourth)</u> US DHEW PHS, April 15, 1965	Conference proceedings edited by MGW, who also participated in discussions and added footnotes "to aid in clarification" and make notes/corrections.
12a	7	Folder: AML		on front of folder "HM;" single 5 1/2" x 8 1/2 " sheet annotated "#1 cancer 1 of 63..."	
12a	8	Folder: Mycotoxins as Aflatoxins		citations and handwritten notes related to aflatoxin poisoning, possible link to neoplasms.	
12a	9 (1 of 2)	**Folder: Text		**hand-written notes, charts: food use and preparation of cycads, use as medicine.	Toxicity of Cycad drafts;
12a	10 (2 of 2)	**Folder: Text		**hand-written notes, charts: food use and preparation of cycads, use as medicine.	
12a	11	Folder: blank tab		**hand-written notes, charts, articles on cycads and methylazoxymethanol (MAM) as a carcinogenic component of cycasin.	Toxicity of Cycad drafts.

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
12a	12	Loose material found in collection #3		Master list and dups of codes for "Plants of Guam" that seem to be symptoms, subject headings and other descriptors used in searching - some pages missing from dups; <u>United Nations Visiting Mission to the Trust Territories of Nauru, New Guinea and the Pacific Islands, 1959 Report on New Guinea...Official Records...2 June--6 August 1959...</u>	old code list - Plants of Guam B. Code for Punching [for Zatoperk cards?]
12a	13	Folder: Cycads: Pop articles		annotated bib going back to voyage of Freycinet on L'Uramie [sic] in 1819	draft annotated bibliography for "Toxicity of Cycads"
12a	14	Loose material found in collection #4		journal articles on cycads, reprint of <u>Proceedings of the Third Conference on the Toxicity of Cycads...April, 17, 1964...</u>	MGW paper, "Food Practices in Japan..." paper with O'Gara et al "Induction of Hepatic...Tumors" published in <u>Proceedings</u> .
12a	<i>Missing</i>			cover page noted "For publication in Economic Botany Early version returned by Schultes"	draft of "Research Progress on Cycads" summary presented by MGW, Maria Spatz and Hiromu Matsumoto from UH.
12a	15	Loose material found in collection #5		Bibliography regarding cycads. Title and compiler unknown - title page and p. v. missing. Not MGW according to footnote at bottom of p. i.	
12a	16	Loose material found in collection #6		loose pages appear to be part of annotated bib.; 3 copies "reference" at top of page and "file name : ALSmonograph at lower left; source of "Index" unknown,	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
12a	17	**Loose material found in collection #7		1 notebook "Iuntwa" ir "Indwa fruit" on front cover with carbons, pages date Nov. 14 - Nov. 16 and stamped 4201-4237; other book dated on front cover Nov. 1, 1967 Kobe, Book #5, stamped 4751-4799 on pages, no carbons. Numbering system or codes in use?	Drawings, uses and descriptions of plants; local plant names it seems were also collected.
12a	18	**Loose material found in collection #8		primarily hand-written notes, hand-drawn and printed charts re; nutrition and nutrition studies;	Results of spectrographic analysis of <i>C. circinalis</i> nuts done by US Dept of Interior, 1962.
12a	19	Folder: Norman		draft of a report of a field study done by an MPH candidate at UH, 1988 re: wild pigs on Guam, cycad seed consumption and neurodegeneration of the pigs.	
12a	20	**Folder: Ca		proposal re: lytico-bodig at Guam by 2 MS degree candidates in Nutritional Sciences; correspondence; journal articles, search results; research proposal re: lytico-bodig paper. Some correspondence is not addressed to MGW but related to cycads.	MGW comments on lytico-bodig paper.
12a	21	Folder: 4878		journal article, "Practical Dietary Studies..."	
12a	22	**Loose material found in collection (1 of 2) #9		jnl article re: epidemiology of ALS, various lists of Chamorro plant descriptors, plants of Guam and the Marianas	
12a	23	**Loose material found in collection (2 of 2) #9		jnl article re: epidemiology of ALS, various lists of Chamorro plant descriptors, plants of Guam and the Marianas	
12a	24	**Loose material found in collection (1 of 2) #10		notes re: bibliography and draft of <u>Lyonia</u> , vol. 3, No. 1; t.p. ? of <u>Conference on the Toxicity of Cycads (Fourth)</u> ; jnl articles re: cycad carcinogenicity and neurotoxicity and "Federation Proceedings;" pp. 26-58 of annotated bib for?	**draft of annotated bib of cycad toxicity by MGW for the Lyon Arboretum, August 1987; partial draft of Fourth cycad conf. edited by MGW t.p. and participants.
12a	25	**Loose material found in collection (2 of 2) #10		notes re: bibliography and draft of <u>Lyonia</u> , vol. 3, No. 1; t.p. ? of <u>Conference on the Toxicity of Cycads (Fourth)</u> ; jnl articles re: cycad carcinogenicity and neurotoxicity and "Federation Proceedings;" pp. 26-58 of annotated bib for?

12b	27	Ghana Food Habits		draft of ms, misc papers	Transferred from Box 16 - Folder 14
12b	28	Loose material found in collection #2		"Diet Calculation Forms" describing food items consumed by adults and children over 2 day period in October 1968; food calculated for amt in weight, grams of protein, fat, etc.	Transferred from Box 18
12b	29	Loose material found in collection #3		"Diet Calculation Forms" describing food items consumed by adults and children over 2 day period in October 1968; food calculated for amt in weight, gram of protein, fat, etc.	Transferred from Box 18

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
13	1	References 535.0 - 549.0		mostly poor (n th degree) photocopies of citations, Project Abstracts, Notice[s] of Research Project[s] related to diet and other variables, each assigned a particular code	
13	2	Folder: orig - incl disc and pictures 1967 Miami meeting 5th; on front of folder, 5th conf 1967		contents do not match folder description. Material appears to be search results on main topic "Diet and Nutritional Status" sorted by and numeric ID, citing author and year of citation, ethnicity of group, etc.	
13		Binder: References 500.0 - 534.6		4" red vinyl binder containing many poor photocopies of citations on One p. too faded to be read; other pp. may be a variety of nutrition related subjects searched with several different generations from original, not clear but readable. variables. Results are coded.	Pages punched for 3-ring binder.

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
13		Binder: References 226.0 - 446.0		4" red vinyl binder with photocopies of citations on a variety of nutrition related subjects cross-referred with several variables; these results also coded.	
13		Green binder: Directory 10.0 - 353.0		1 1/2 " green cloth binder containing what appears to be search results on main topic "Cancer and Diet" sorted by and numeric ID, citing author and year of citation, ethnicity of group, etc.	
13		Green binder: no title		seems to be a coding schema for research; codes assigned for plants, specific ailments, etc. 2 loose pages behind tabbed page "Conclusions" do not seem to belong in this binder.	
14	1	Folder: loose material found in folder #1		packet of requests from MGW to NIH Library for jnl articles; hand-written note" Guam" on original envelope; hand-drawn chart recording info on foodstuffs in Ghana; copy of paper presented in 1971 on Volta Lake in Ghana	note from ILL librarian to MGW dated 4/13/64; in orig. envelope return address Library at NIH
14	2	Kuru - Melaneasia (sic) Native, Nuerological (sic) Disorder		jnl articles and paper presented re: kuru	
14	3	Human Biology of Papua-New Guinea		jnl article, "The Institute of Human Biology of Papua-New Guinea."	

New Box #	Folder No.	File Name (from original folder)	Item Title	Description (from original folder)	Additional Notes:
14	4	Veterinary Necropsy Protocol 4249		<u>Veterinary Necropsy Protocol</u> Armed Forces Institute of Pathology, n.d. note on front cover of booklet \$ ____ #5910	
14	5	Folder: loose material found in folder #2		<u>The Journal of Tropical Pediatrics and Environmental Child Health</u> , Vol 18, number 1, March 1972.	several pages missing, apparently cut from journal
14	6	Trust Territory of the Pacific Islands		items from the <u>Congressional Record</u> , booklet, <u>1956 Annual Report The High Commissioner of the Trust Territory of the Pacific Islands...</u> , correspondence to and from MGW re: proposed research in the Trust Territory that was denied at the time.	One personal letter from MGW to "Dear Ann and Jack" Oct 28, no year; carbon copy, 3pp, incomplete? no closing statement.
14	7	Plants: (Mitogawa, Japan) Food, Medicinal, Toxic		hand-written and typed notes describing plants of interest in Japan; memo sent accompanying seed specimens of 10 legumes from Japan to NIH; lists of plant names, esp. legumes from Japan.	Jan. 28, 1964 correspondence to Gail Williams re: cows in Mitogawa describing "leg distortions" and asks if lit. search can be done.
14	8	Hawaiian-Pacific Rim Studies		booklet <u>Antivenins</u> ; papers on cropping systems, legal systems in the Western Pacific; what appears to be a research proposal: "Biological and Chemical Evaluation of Certain Guam Plants." Recipe book for PNG.	**noted "Biological and Chemical Evaluation..." proposal by U. of Pittsburgh to investigate selected plants from MGW's list compiled during her visits to Guam in 1957-58 and 1963 in the Addendum. See letter re: proposal in Folder: Plants of Guam dated January 17, 1966. Some files transferred to Box 12b - Fd. 9
14	9	#5092 Plants of Guam - Data		reprint, "Man Does Not Live by Calories Alone..." code sheets for plant Genera, spp., habitat, uses, etc.,	
14	10	Chamoro (sic) Vocabulary Guam language		booklet: Lingua	
14	11	Folder: no tab label		on front of folder: February 16, 1988 "This is in abc order of Author." Bib "Toxicity of Cycads" with pencil note, " New additions made but corrections not made MGW; Latest copy Feb 16..."	
14	12 (Folder 1 of 2)	Pacific Science Congress - Addresses		booklet <u>List of Botanists Interested in Pacific Basin Problems</u> ; 9th, 10th, 11th, Pacific Science Congress papers.	Some files transferred to box 12b - Folder 8

19	2	Electrophoresis		instructions for "Electrophoresis of Mimosine and its derivatives;" appears to be details of testing done of several samples of mimosine and results.	From Wikipedia: Mimosine is an alkaloid, β -3-hydroxy 4 pyridone amino acid... toxic non-protein free amino acid otherwise chemically similar to tyrosine... first isolated from Mimosa pudica. In ruminants, mimosine is degraded to 3,4 and 2,3 dihydroxy pyridone (3,4- and 2,3-DHP). It occurs in a few other Mimosa spp. and all members of the closed allied genus Leucaena. (http://en.wikipedia.org/wiki/Mimosine accessed 5/21/09).
19	3	Fiber		copy of handbook, <u>Forage Fiber Analysis...</u>	
19	4 (1 of 3)	Leucaena Misc		on cover of folder, Food Sci and NB Hegarty; jnl articles and papers on Leucaena glauca [known as koa haole in Hawaii;] <u>Biomass Energy Options for the American Territories of the Pacific...</u> November 1982; <u>System Agro...</u> April 2, 1981; draft <u>Leucaena...</u> reprint "The Pigeon Pea...", etc. re: Leucaena. Some material in Indonesian language?	Small packet of index cards at back of folder pertains to Brazil folders.
