 Box 13
 May 2010

New Box #	Folder No.	Item	Description	Notes
13	1	Folder: References 535.0 - 549.0	mostly poor (n th degree) photocopies of citations, Project Abstracts, Notice[s] of Research Project[s] related to diet and other variables, each assigned a particular code	photocopy few pp with adhesives or white-out. Copies are not clear but readable.
13	2	Folder: orig - incl disc and pictures 1967 Miami meeting 5th; on front of folder, 5th conf 1967	contents do not match folder description. Material appears to be search results on main topic "Diet and Nutritional Status" sorted by and numeric ID, citing author and year of citation, ethnicity of group, etc.	ID numbers are divided and separated by acidic tabbed index page; 1 of the number ranges is missing from tab. Pages punched for 3-ring binder. Place on a/f folders, leave in accordior folder or place in archival 3-ring binder? Retain original order.
13		Binder: References 500.0 - 534.6	4" red vinyl binder containing many poor photocopies of citations on a variety of nutrition related subjects searched with several different variables. Results are coded.	1 p. too faded to be read; other pp. may be generations from original, not clear but readable. Pages punched for 3-ring binder, which is too full. Retain original order when rehousing in a/f folders.
13		Binder: References 226.0 - 446.0	4" red vinyl binder with photocopies of citations on a variety of nutrition related subjects cross-referred with several variables; these results also coded.	Some small slips of paper with citations paper clipped on may be in danger of being lost.
13		Green binder: Directory 10.0 - 353.0	1 1/2 " green cloth binder containing what appears to be search results on main topic "Cancer and Diet" sorted by and numeric ID, citing author and year of citation, ethnicity of group, etc.	rehouse in a/f folders retaining original order; number ranges are from 2 tabs; 2 loose pages for "148 Ceylon" are in order but not punched - don't lose them.
13		Green binder: no title	seems to be a coding schema for research; codes assigned for plants, specific ailments, etc. 2 loose pages behind tabbed page "Conclusions" do not seem to belong in this binder.	photocopy as needed; toss acidic boards, etc &. refolder.
