

## Lyon Arboretum Nature Camp Registration Form

Session name	Dates	Parent or guardian's email address
--------------	-------	------------------------------------

Child's first name	Child's last name	Child's gender
--------------------	-------------------	----------------

Home address	City, State	ZIP
--------------	-------------	-----

Current grade level	Current school
---------------------	----------------

Child's age	Child's birthdate
-------------	-------------------

Parent or legal guardian 1's name	Relationship to child	Phone
-----------------------------------	-----------------------	-------

Parent or contact 2's name	Relationship to child (2)	Phone (2)
----------------------------	---------------------------	-----------

Contact 3's name	Relationship to child (3)	Phone (3)
------------------	---------------------------	-----------

Contact 4's name	Relationship to child (4)	Phone (4)
------------------	---------------------------	-----------

Doctor's name	Doctor's phone
---------------	----------------

Health insurance plan	Policy number
-----------------------	---------------

Does your child have any special needs, health problems, food or other allergies, or sensitivity to medication?	Yes	No
If so, please explain		
In an emergency, if we are unable to contact you, may we take your child for emergency care?	Yes	No
I give the Arboretum permission to use photographs of my child for Arboretum promotional use.	Yes	No

## Lyon Arboretum Nature Camp Bug Spray Permission Form

This form will allow us to keep track of different camp families' preferences about bug spray and sunscreen application. A star indicates our recommended selections.

If you have any questions or concerns, you can reach us at LyonEDU@hawaii.edu or call us at 808-988-0461. Mahalo!

Child's first name \_\_\_\_\_

Child's last name \_\_\_\_\_

OPTIONAL: Other campers' names \_\_\_\_\_

If you have multiple children enrolled in camp, you can list their names here. If there are different instructions for different children (e.g., my 12-year-old can apply her own spray, but my five-year-old needs an adult to help), you can list that in the "special instructions" at the end. Alternatively, you can also fill out the form multiple times, once for each child. Otherwise we will assume the instructions you give cover all children listed on this form.

### Bug spray (and sunscreen) preferences

Lyon Arboretum has many positive features, but it also has many mosquitoes. We strongly recommend that all visitors, especially our campers, wear bug spray AND bring the bottle with them to reapply during the day.

Another useful strategy is for campers to wear long pants and long sleeves to reduce their exposure to the mosquitoes and to the sun. (Socks that cover the ankles are also recommended!) Determined mosquitoes can still bite through some clothing, but keeping the limbs covered does seem to reduce the number of bites overall. Mosquito repellent can also be applied over/onto the clothing.

#### Can we apply bug spray or sunscreen to your child?

★  Yes. I give permission to the Lyon Arboretum Education Department's staff to apply bug spray or sunscreen to my child(ren), and I will apply bug spray or sunscreen on my child(ren) before camp.

No. I DO NOT give permission to the Lyon Arboretum Education Department's staff to apply bug spray or sunscreen to my child(ren). I will apply bug spray and sunscreen to my child(ren) before camp.

**Can your child borrow our bug spray?** (NOTE: DEET-free bug spray is not available to borrow.)

No. ONLY the bug spray that I AM PROVIDING can be applied to my child.

★  Yes. It is OK to apply BORROWED bug spray to my child (even if it contains DEET)

#### What level of supervision is required?

Sunscreen / bug spray MUST be applied by an adult.

It is OK for my child to apply sunscreen / bug spray to their own body with adult supervision.

Lyon Arboretum Nature Camp Bug Spray Permission Form

**Where can bug spray and sunscreen be applied to your child? Please check all that apply.**

We *strongly* recommend allowing insect repellent to be applied to head/neck/face of children in addition to their arms and legs.

Our staff is more than willing to help apply spray, and we are experienced in preventing children from getting it in their eyes, nose, or mouth.

There are also insect repellent products available such as wipes and creams that provide protection while offering more control over where the repellent is applied. (However, it is our observation that anti-mosquito bracelets, patches, and stickers seem not to be effective.)

★  It is OK to apply sunscreen / bug spray to my child's arms/legs

★  It is OK to apply sunscreen / bug spray to my child's face/neck/head.

**Masks**

As of 9/9/22 our mask policy for camp is as follows:

- Masks are recommended INSIDE, but are not required.
- We will be eating lunch and snack outside.

This section is for families to give more specific instructions about when their children should wear masks.

**Please select one**

My child(ren) should keep their mask(s) ON when outside.

My child(ren) may take their mask(s) OFF when outside.

**Please confirm**

I have or will review with my child(ren) when they will be expected to wear their masks at camp.

**(OPTIONAL) Special instructions or allergen/sensitivity notes:**

**How did you hear about our camp? (Check all that apply)**

- Returning camper
- Word of mouth
