29. Check one type that describes your school's LD Program:

Structured/Proactive/Comprehensive program: Program has separate admissions process and charges fees. Services go well beyond those that are legally mandated and the student is provided with a more structured environment. Low staff/student ratios. Compulsory student attendance. An advisor/advocate is made available to students.

Self-directed/decentralized services: There is no separate admissions process and eligibility for services must be established by the provision of disability documentation that meets institutional standards. Services may be coordinated through the Disability Services office and are based on need as specified by the documentation. Other offices throughout the campus may also provide services and some services offered are not mandated by laws. Students' progress is not monitored.

Compliance: Most of the services and accommodations that are provided to students with learning disabilities are those required by law. This type of program can meet the needs of independent students, aware of their needs and able to develop and coordinate their own support systems.
