

The ILO Implementation Committee met bi-weekly throughout the semester to continue implementation of the ILOs. Along with the on-going discussion of how best to measure and assess the ILOs, the following is a brief list of our accomplishments this semester:

- Met with OVCAA Reed Dasenbrock to seek clarity regarding the charge of the committee.
- Drafted a memo that articulates the ways in which the ILOs align with the core competencies WASC requires for accreditation. This memo was distributed to MAC, CAP, and GEC for comment and will be revised accordingly.
- Completed our ILO “roadshow” and have now met with all the colleges and programs at UH. As a result, deans, directors, and department chairs have been made aware of the ILOs and how they can and should relate to the SLOs.
- Solicited and received a design for the layout of the ILOs as a brochure. Upon the completion of this brochure, the ILOs will be more easily communicated to faculty and students.
- Discussed the relationship of ILOs to student co-curricular activities and how to best assess these.

Remaining this semester and one of our initial goals for the Spring semester include:

- Meet with Lori Ideta and Bonnyjean Manini to discuss co-curricular programming and assessment in more detail.
- Meet with Faculty Senate (early spring semester). We seek to bring the issue of ILO implementation back to the faculty senate so the senate can be more clearly informed on the progress of the committee and what will need to be done to implement the ILOs.
- Request a budget to develop initiatives, brochures, and other events associated with the implementation of the ILOs.
