Sec. 3 Preparation of Cases
The Committee is vitally interested in seeing that each tenure, promotion, contract renewal, and merit increase case be fully and properly documented and well organized.

A. Tenure and/or promotion
   a. Candidates for tenure and/or promotion are responsible for submitting a complete, current, and accurate dossier by the deadline in accordance with UH Criteria and Guidelines and Departmental Criteria. In addition, each candidate should compile an online folder of supplemental information that provides additional documentation of accomplishments, such as publication samples, copies of award documents, peer-reviews of his or her scholarly work, course syllabi, instructional materials developed, or reports written. The candidate must provide evidence of effective teaching, if applicable, at the rank applied; it is recommended that this include all teaching evaluations; in the absence of this evidence, it will be difficult for reviewing bodies to adequately determine if the teaching criteria are met. A physical file box of the online folder may be submitted to the CRDG director and held until the review process is completed, at which time it will be returned to the candidate. Copies of publications and papers are not to be included in the dossier. The focus of the dossier review is on the summaries in the narrative and required appendices. Both instructional and specialist faculty should include documentation on job responsibilities.

B. Contract renewal
   a. Candidates for contract renewal will submit the UH application form, a short narrative recommended not to exceed eight (8) pages and a bibliography documenting activities occurring within the period of review, including accomplishments such as teaching/professional activity, research/scholarly activity, and service. For instructional (I) faculty, include a summary of teaching evaluations for every course taught; a bibliography of scholarly works including percentages of effort for collaborative production; and a list of service activities divided by Department, College, University, community/state, and national/international activities. For specialist (S) faculty, include documentation on job responsibilities, service, and one to two work samples for those areas of primary professional and scholarly activity appropriate to his/her position. In addition, each candidate should compile an online folder of supplemental information that provides additional documentation of accomplishments, such as publication samples, copies of award documents, peer-reviews of his or her scholarly work, course syllabi, instructional materials developed, or reports written.

C. Periodic review
   a. CRDG faculty members will provide evidence of continued accomplishments addressing CRDG faculty criteria. Toward this end, faculty members will submit an updated curriculum vitae (CV); a statement no more than five (5) pages describing the work done since the last period of review, with specific references to the sections of the CV documenting this work; and additional information or documentation to augment the above.

D. Supplemental information
a. The Committee is limited to considering evidence provided by the candidate. If the Committee wishes to invite the candidate to provide additional information, then such a request can be forwarded through the Office of the Dean. Unsolicited advice, unsigned letters, anonymous surveys, and "secondhand" information are not legitimate inputs into the Committee assessment process and will not be accepted or considered.

E. Assistance with preparation
a. Candidates may request the Committee to advise and assist them in the preparation of their dossier and documentation, provided this request is made to the chairperson at least two weeks in advance of the first meeting scheduled to review the candidate’s case.

b. If the candidate wishes assistance, he or she shall submit an initial draft dossier with supporting evidence to the DPC via the chairperson. Candidates should refer to the annual document on Criteria and Guidelines for Faculty Tenure/Promotion Application University of Hawai‘i at Mānoa for information on what must be included in the Tenure/Promotion application.

c. Candidates may ask to appear prior to the first meeting scheduled to review the candidate’s case to clarify documentation and to present evidence.

Sec. 4. Voting on Promotion, Tenure, Renewal of Probationary or Limited-Term Contract, and Merit Cases
A. In order to vote on recommendations for promotion, tenure, renewal of probationary or limited-term contract, or merit pay, a member must have attended at least two meetings during which that candidate’s dossier was discussed. Two-thirds of the appointed Committee(s) must be present either in person or electronically in order for the voting to proceed.

B. Voting shall be by secret ballot and reported in the minutes of the meeting. Electronic secret ballot voting is allowed.

C. Two separate votes shall be recorded for each case, a straw vote and an official vote. Members included in votes are specified below:
   1. In votes on merit increase, the official vote shall include all CRDG collective bargaining unit 7 faculty who participated in the review.
   2. In votes on contract renewal, the official vote shall include appointed tenured collective bargaining Unit 7 faculty (excluding the director) who have at least a 50% appointment to CRDG.
   3. In votes on simultaneous promotion and tenure, the official vote shall include the five appointed tenured faculty members of equal or higher rank to which the candidate has applied.
   4. In votes on promotion only, the official vote shall include the five appointed tenured faculty members of equal or higher rank to which the candidate has applied.
   5. In votes on tenure only, the official vote shall include the five appointed tenured members.
Sec. 5. Consideration of Candidates for Contract Renewal, Tenure, or Promotion

A. All members of the Committee shall receive a copy of the dossier for study one calendar week prior to the meeting at which the candidate’s case will be discussed. Additional time for study of the candidate’s dossier may be requested by any three Committee members provided deadlines established for the current academic year are not exceeded.

B. The candidate may request in writing an extension of the probationary period under special conditions and following UH guidelines. Cases will be considered individually. The request is to be submitted to the CRDG director.

C. For cases of tenure and/or promotion, letters of external review will be solicited by the CRDG director and testimony and other evidence will be solicited and studied by the Committee. External reviewers should be at or above the rank aspired to by the candidate and should have the appropriate expertise to assess the breadth and depth of the candidate’s work, with preference for referees from other R1 institutions with similar programs. The CRDG director will ask the candidate to provide in writing a list of a minimum of three-to-five names of non-UHM scholars in a related field. A candidate’s dissertation advisor should not be included on such a list. External reviewers must not be a professional with whom the candidate has a close (continuous) working or personal relationship. Candidates should not contact possible external evaluators. In consultation with the Committee chairperson, the CRDG director will obtain reviews from two or three of these people and from two or three known scholars who are appropriate for evaluating the candidate’s work during the period under review, with an equal number to be selected from each. Annual campus guidelines from the Office of the VCAA for detailed procedures of the external review will be followed. The confidentiality of such evaluations is of great concern. The Committee chairperson should refer to the UH Criteria and Guidelines document for details on handling the resulting review letters. External review letters are not shown to the candidate at any time.

(1) For instructional (I) faculty, copies of three to five authoritative publications demonstrating the candidate’s scholarly work and a current curriculum vita (CV) shall be provided to the director. This will constitute the external review packet. For specialist (S) faculty, copies of work samples appropriate to their primary job activities and a current CV shall be provided to the director. This will constitute the external review packet. Digitized copies of these documents are preferred but not required.

D. All deliberations shall be summarized prior to taking a straw vote. The straw vote must be by secret ballot and reported in the minutes of the meeting. Electronic secret ballot voting is allowed.

E. After the straw vote to recommend or not recommend the candidate in whatever action is before the Committee, the chairperson shall appoint a subcommittee to draft a report which will be submitted to the Committee for ratification. Committee members may submit written comments to the subcommittee for use in the preparation of the statement on behalf of the Committee. If such comments are to be included, the names of the Committee member/evaluators must be removed.

F. After the straw vote, a CRDG DPC member of the subcommittee will summarize any concerns and share them with the candidate at a personal meeting. The candidate will have the opportunity to respond, particularly to any serious negative concerns, including areas of insufficient documentation, raised about the dossier prior to a final vote. Each candidate is to be evaluated only on the professionally relevant categories mentioned in the criteria. When more than one faculty member is being assessed by the Committee, the candidates shall not be compared to one another.

G. When all Committee members have completed the review of the dossier and of other evidence, they shall meet to take a vote on the merits of the requested action (tenure and/or promotion, or contract renewal). The final vote must be by secret ballot. Electronic secret ballot voting is allowed. It is the Committee chairperson’s responsibility to make sure the Committee members know whether the vote about to be taken is the straw or final.

H. Except for candidates on leave, the candidate shall be informed orally of the Committee’s recommendation by the chairperson within 24 hours after a vote is taken. Candidates on leave shall be notified in writing.

I. The Committee’s assessment and recommendation shall be forwarded to the CRDG director by the deadline established for the current academic year.

Sec. 6. Timetable for Contract Renewal for Probationary Tenure Track Permanent Faculty
A. Initial appointment shall be for a two-year period. Contract renewal, therefore, occurs in Year 2.

B. If the faculty member is reappointed, this contract shall be for two years. Unless the faculty member or the employer requests an extension or a shortening of the probationary period, faculty usually apply for tenure and/or promotion in the final year of probationary service.

Sec. 7. Optional and Voluntary Third-Year Review for Probationary Tenure Track Permanent Faculty
A. Probationary faculty have the option to request an informal review by the Committee in Year 3. The purpose of this review is to provide feedback to the faculty member. The faculty member, not the Committee, must initiate a request for such a review. Requests for informal reviews should be submitted to the Committee at the beginning of the fall semester. This review is not a contract renewal and the administrative procedures and forms for contract renewal will not be used. Neither the faculty member’s review nor the Committee’s response will be forwarded to the dean or director. All data, including the faculty member’s submissions and any written response by the Committee, must be returned to the faculty member and will be controlled by the faculty member.
