Lab Station 1: The Cruncher

1. Name of a reef fish using this method of feeding to “crunch” food: ________________________________

2. Describe the fish’s mouth features and the type of food it eats:

3. Explain in words, or in a drawing, the tools you used, and how you used them:

4. Record your observations (What happened? Was it difficult? Why or why not?):

5. What conclusions can you draw about the mouth features that help the 'cruncher' fish to feed?
Lab Station 2: The Picker

1. Name of reef fish who “picks” to obtain food: ____________________________

2. Describe the fish’s *mouth features* and the *type of food* it eats:

3. Explain in words, or in a drawing, the tools you used, and how you used them:

4. Record your observations (What happened? Was it difficult? Why or why not?):

5. What conclusions can you draw about the mouth features that help the ‘picker’ fish to feed?
Station 3: The Point-of-Viewers

1. Name of a reef fish with mouth feature that points at its food in a specific direction: 

2. Describe the fish’s *mouth features* and the *type of food* it eats:

3. Explain in words, or in a drawing, the tools you used, and how you used them:

4. Record your observations (What happened? Was it difficult? Why or why not?):

5. What conclusions can you draw about the mouth features that help the 'point-of-viewers' fish to feed?
Station 4: The Sucker

1. Name of a reef fish who "sucks" its food: ____________________________________________

2. Describe the fish’s mouth features and the type of food it eats:

3. Explain in words, or in a drawing, the tools you used, and how you used them:

4. Record your observations (What happened? Was it difficult? Why or why not?):

5. What conclusions can you draw about the mouth features that help the 'sucker' fish to feed?
