VISION OF THE THOMPSON SCHOOL OF SOCIAL WORK & PUBLIC HEALTH :

To achieve social justice and health equity for the people of Hawai'i and citizens in a changing world.

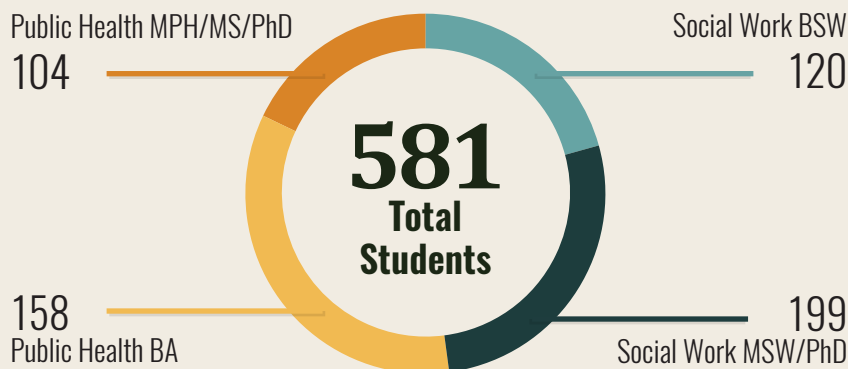

Thompson School of Social Work & Public Health MSW Program is ranked by US News and World Report in the top 20% of programs.

The namesake of the School, Myron "Pinky" B. Thompson earned his MSW from the University of Hawai'i in 1953. He was a visionary who worked on behalf of all the people of Hawai'i but was especially renowned for his efforts to preserve and perpetuate Hawaiian culture.

He served as the Executive Director of the Queen Lili'uokalani Children's Centers, Trustee of the Bishop Estate and co-founded and was president of the Polynesian Voyaging Society. He helped establish key organizations such as ALU LIKE, Inc., and Papa Ola Lōkahi.

Throughout his life, he sought guidance through the wisdom and knowledge of his ancestors to pioneer modern day initiatives that would help ensure the future of Native Hawaiians and all people of Hawai'i. The UH Board of Regents approved the naming of the School after him on September 19, 2008.

55 Faculty 20 Staff 15 Lecturers 209 Adjunct Field Instructors 56 Graduate Assistants

Thompson School Degree Offerings

Social Work

Bachelor of Social Work
- Campus and Online Options

Master of Social Work
- Campus and Online Options

Hawaiian Place of Learning

The Thompson School of Social Work & Public Health strives to build a *kauhale* (village) that fosters educational excellence that is grounded in cultural competency with a focus on research, instruction and service.

NHIIH: The Office of Public Health Studies host the only specialization in the United States dedicated to Native Hawaiian and Indigenous Health.

Ke A'o Mau: This signature interdisciplinary course, taught by kumu loa, is organized around principles and practices that support cultural competency in work with Native Hawaiians. Supported by the Hawai'i Pacific Foundation.

Ola HAWAII aims to achieve health and wellness among Native Hawaiians, Pacific Islanders,

Filipinos, and others who experience health disparities by supporting team-science and community-engaged research. Funded by NIH/NIMHD.

Hā Kūpuna National Resource Center for Native Hawaiian Elders explores health and resilience of

Native Hawaiian elders. Funded by the US Administration on Aging.

HADI Hawai'i Alzheimer's Disease Initiative

A PROJECT OF THE UH CENTER ON AGING
www.hawaii.edu/aging/hadi

Hawai'i Alzheimer's Disease Initiative (HADI):

HADI's statewide, culturally-tailored "best practices" dementia programs include interdisciplinary memory clinics, memory care navigation, Savvy Caregiver, Dementia Friends, plus training in dementia early detection and support. Funded by the US Administration for Community Living.

Mele Aloha

Ākea ka moana nui
Ho'olālani 'ia o 'Iwikuamo'o
E pūlama i mōhala nā pua
A kū i ka māna
E kupu a liko a'e
E ulu a ola mau
A kau i ka puaaneane
E ola mau Ka Lāhui!

The immense ocean of Kanaloa
Aligned is 'Iwikuamo'o
Cherish them so they may blossom
Fed by the elder, the younger retains the knowledge
Bud forth and grow
Increase and thrive
To live a full life
Long live the Nation!

As namesake for the School, Pinky is a teacher for all who enter our kauhale. A mele aloha (song of aloha) written by social work alumni Brandee Aukai and Kelly Anne Beppu was gifted to the School to honor Pinky's life and his dedication to teaching and learning.

Global Social Justice

The Thompson School of Social Work & Public Health is committed to globally engaged research and education. Our students and faculty collaborate with international professional institutions and organizations engaged in epidemiology, gerontology, health literacy, health behavior, health services, social welfare, mental health, child welfare and health economics.

The Adolescence and Motherhood Research (AMOR)

project, supported by the Fogarty International

Center and the Fulbright Specialist program, builds upon academic partnerships between Public Health and colleagues in Brazil and Canada.

Bias Against Micronesians

Funded by the National Institute of Justice, this study examined the relationship between experiencing bias or discrimination and adapting to a new home in Hawai'i.

The Health Financing Transition

project built new theoretical and empirical insights into health financing and is used by the World Health Organization and World Bank in national health system planning.

Hawai'i-China International Exchange Program

provides public health education globally while preparing future leaders through connections with several leading schools of public health in China. Students spend eight weeks engaged in a service-learning project.
