RTRF Report FY 2020

Velma Kameoka Interim Vice Chancellor for Research

Preamble

The University of Hawai'i at Mānoa continues to maintain vibrant and active research programs with \$338 million in new extramural funds in FY-20. The focus of the Office of the Vice Chancellor for Research will be to continue to use Research and Training Revolving Fund (RTRF) toward increasing the quality and quantity of the research/scholarship across the institution.

During FY-19 our faculty generated \$43,684,790.82 in indirect costs, of which \$1,477,633.08 was adjusted for System-wide support resulting in an adjusted allocation of \$42,207,157.74. 25% of this total was kept at the level of the UH System (\$10,428,694.74) and 75% returned to Mānoa (\$31,778,463). Of Mānoa's adjusted allocation, 50% was directly returned to the units generating the funds. The remainder was distributed by the Office of the Vice Chancellor for Research for research/scholarship support (e.g. start-up, infrastructure, cost sharing, etc.).

Detailed on the following pages is a summary report for RTRF expenditures for FY-20. The format for this report is as requested by the Senate Executive Committee.

What policies are currently in place for how funds are spent within the University of Hawai'i System and the UH Mānoa Campus?

- Hawai'i Revised Statues Section 304A-2253, Research and Training Revolving Fund (RTRF), established a University of Hawai'i research and training revolving fund into which 100% of the total amount of the indirect overhead revenues generated by the university is deposited into this account for: "(1) Research and training purposes that may result in additional research and training grants and contracts; (2) Facilitating research and training at the university; and (3) Further deposit into the discoveries and inventions special fund."
- RTRF allocation is based on the prior year revenue.
- Any extension of the RTRF allocation period and any deviation in expenditure must be approved by the VCR.

How are the funds used to support and build the research infrastructure that brought the funds into the University System?

- A primary focus of the VCR is on those units that generated the funds.
- Expenditures are made in consultation within the relevant units, including Deans/Directors and Faculty.

What funds are projected for this year?

- In FY-20, Mānoa generated \$38,305,767.96.
- The return to Mānoa in FY-21 is \$28,798,284 that will be distributed campuswide.

How will these funds be distributed and utilized this year?

For FY-20, the same formula will be used.

- Of Mānoa's adjusted allocation:
 - 50% will be distributed to the units generating the overhead revenue
 - 25% will be kept at Mānoa for research support (e.g. start-up, infrastructure, cost sharing, etc.)
